

Statement of Additional Information

June 28, 2017

BRIGHT ROCK MID CAP GROWTH FUND

Institutional Class shares (BQMGX)

Investor Class shares (BQMIX)

BRIGHT ROCK QUALITY LARGE CAP FUND

Institutional Class shares (BQLCX)

Investor Class shares (BQLIX)

This Statement of Additional Information ("SAI") provides general information about the Bright Rock Mid Cap Growth Fund (the "Mid Cap Growth Fund") and the Bright Rock Quality Large Cap Fund (the "Quality Large Cap Fund") (each, a "Fund" and collectively, the "Funds" or the "Bright Rock Funds"), each a series of Trust for Professional Managers (the "Trust"). This SAI is not a prospectus and should be read in conjunction with the Funds' current prospectus dated June 28, 2017 (the "Prospectus"), as supplemented and amended from time to time, which is incorporated herein by reference. The Funds' audited financial statements for the fiscal year ended February are incorporated herein by reference from the Funds' 2017 Annual Report to Shareholders. To obtain a copy of the Prospectus and/or the Funds' 2017 Annual Report to Shareholders free of charge, please write or call the Funds at the address or toll-free telephone number below, or visit the Funds' website at www.brightrockfunds.com.

The Trust

The Trust is a Delaware statutory trust organized on May 29, 2001, and is registered with the Securities and Exchange Commission (“SEC”) as an open-end management investment company. Each Fund is one series, or mutual fund, formed by the Trust. Each Fund is a diversified series and has its own investment objective and policies. As of the date of this SAI, shares of thirty-one other series of the Trust are offered in separate prospectuses and SAIs. The Trust may start additional series and offer shares of a new fund or share class under the Trust at any time.

The Trust is authorized to issue an unlimited number of interests (or shares). Each share of the Trust has equal voting rights and liquidation rights, and is voted in the aggregate and not by the series or class of shares, except in matters where a separate vote is required by the Investment Company Act of 1940, as amended (the “1940 Act”), or when the matters affect only the interest of a particular series or class of shares. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each full share owned and fractional votes for fractional shares owned. Shares of each series or class generally vote together, except when required under federal securities laws to vote separately on matters that only affect a particular class. The Trust does not normally hold annual meetings of shareholders. The Trust’s Board of Trustees (the “Board” or the “Board of Trustees”) shall promptly call and give notice of a meeting of shareholders for the purpose of voting upon removal of any trustee when requested to do so in writing by shareholders holding 10% or more of the Trust’s outstanding shares.

With respect to the Funds, the Trust may offer more than one class of shares. The Trust has adopted a multiple class plan pursuant to Rule 18f-3 under the 1940 Act, detailing the attributes of each share class of the Funds, and has reserved the right to create and issue additional series or classes. Each share of a series or class represents an equal proportionate interest in that series or class with each other share of that series or class. Each Fund offers two classes of shares: Institutional Class and Investor Class.

Each share of a Fund represents an equal proportionate interest in the assets and liabilities belonging to that Fund and is entitled to such distributions out of the income belonging to the Funds as are declared by the Board of Trustees. The Board of Trustees has the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series so long as the proportionate beneficial interests in the assets belonging to that series and the rights of shares of any other series are in no way affected. Additionally, in case of any liquidation of a series, the holders of shares of the series being liquidated are entitled to receive a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series or class are borne by that series or class. Any general expenses of the Trust not readily identifiable as belonging to a particular series or class are allocated by, or under the direction of, the Board of Trustees on the basis of relative net assets, the number of shareholders or another equitable method. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

The assets of a Fund received for the issue or sale of its shares, and all income, earnings, profits and proceeds thereof, subject only to the rights of creditors, shall constitute the underlying assets of a Fund. In the event of the dissolution or liquidation of a Fund, the holders of shares of that Fund are entitled to share pro rata in the net assets of that Fund available for distribution to shareholders.

Bright Rock Capital Management, LLC (the “Adviser”) serves as the investment adviser for the Funds.

Investment Policies, Strategies and Associated Risks

Investment Objective

The investment objective of each Fund is long-term capital appreciation. Each Fund's investment objective may be changed without the approval of the Funds' shareholders upon 60 days' prior written notice to shareholders.

Diversification

The Funds are diversified. Under applicable federal laws, to qualify as a diversified fund, each Fund, with respect to at least 75% of its total assets, may not invest more than 5% of its assets in any one issuer and may not hold more than 10% of the securities of one issuer. The remaining 25% of a Fund's total assets does not need to be "diversified" and may be invested in the securities of a single issuer, subject to other applicable laws. The diversification of a Fund's holdings is measured at the time the Fund purchases a security. However, if a Fund purchases a security and holds it for a period of time, the security may become a larger percentage of the Fund's total assets due to movements in the financial markets. If the market affects several securities held by a Fund, the Fund may have a greater percentage of its assets invested in securities of fewer issuers. Because the Funds are diversified, the Funds are less subject to the risk that their performance may be hurt disproportionately by the poor performance of relatively few securities.

Investment Strategies and Related Risks

There is no assurance that the Funds will achieve their investment objectives. The following discussion supplements the description of the Funds' investment objectives and principal investment strategies set forth in the Prospectus. Except for the fundamental investment restrictions listed below (see "Investment Restrictions"), the Funds' investment strategies and policies are not fundamental and may be changed by sole action of the Board of Trustees, without shareholder approval. While the Funds are permitted to hold securities and engage in various strategies as described hereafter, they are not obligated to do so.

Whenever an investment policy or investment restriction states a maximum percentage of a Fund's assets that may be invested in any security, or other asset, or sets forth a policy regarding quality standards, such standard or percentage limitation will be determined immediately after and as a result of a Fund's acquisition or sale of such security or other asset. Accordingly, except with respect to borrowing or illiquid securities, any subsequent change in values, net assets or other circumstances will not be considered when determining whether an investment complies with a Fund's investment policies and investment restrictions set forth herein or in the Prospectus. In addition, if a bankruptcy or other extraordinary event occurs concerning a particular investment by a Fund, that Fund may receive stock, real estate or other investments that the Fund would not, or could not, buy. If this happens, that Fund will sell such investments as soon as practicable while trying to maximize the return to its shareholders.

An investment in the Funds is not a deposit of Rockland Trust Company and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

General Market Risk

U.S. and international markets have experienced significant volatility in recent years. The securities markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default and valuation difficulties, all of which may increase the risk of investing in securities held by the Funds.

Equity Securities

An equity security (such as a stock, partnership interest or other beneficial interest in an issuer) represents a proportionate share of the ownership of a company. Its value is based on the success of the company's business, any income paid to stockholders, the value of its assets and general market conditions.

Common stocks and preferred stocks are examples of equity securities. Preferred stocks are equity securities that often pay dividends at a specific rate and have a preference over common stocks in dividend payments and liquidation of assets. Some preferred stocks may be convertible into common stock. Convertible securities are securities (such as debt securities or preferred stock) that may be converted into or exchanged for a specified amount of common stock of the same or different issuer within a particular period of time at a specified price or formula. More information regarding common stock, preferred stock and convertible securities appears below.

The risks of investing in companies in general include business failure and reliance on erroneous reports. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion. Mid-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group.

Common Stock

A common stock represents a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets, and general market conditions. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which the Funds invest is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Funds as holders of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Funds.

Preferred Stock

Preferred stocks are equity securities that often pay dividends at a specific rate and have a preference over common stocks in dividend payments and liquidation of assets. A preferred stock is a blend of the characteristics of a bond and common stock. It can offer the higher yield of a bond and has priority over common stock in equity ownership, but does not have the seniority of a bond and, unlike common stock, its participation in the issuer's growth may be limited. Although the dividend is set at a fixed annual rate, in some circumstances it can be changed or omitted by the issuer.

Convertible Securities

Convertible securities include fixed income securities that may be exchanged or converted into a predetermined number of shares of the issuer's underlying common stock or other equity security at the option of the holder during a specified period. Convertible securities may take the form of convertible preferred stock, convertible bonds or debentures, units consisting of "usable" bonds and warrants or a combination of the features of several of these securities. The investment characteristics of each convertible security vary widely, which allows convertible securities to be employed for a variety of investment strategies. A Fund will exchange or convert convertible securities into shares of underlying common stock when, in the opinion of the Adviser, the investment characteristics of the underlying common stock or other equity security will assist the Fund in achieving its investment objective. The Funds may also elect to hold or trade convertible securities. In selecting convertible securities, the Adviser evaluates the investment characteristics of the convertible security as a fixed income instrument, and the investment potential of the underlying equity security for capital appreciation. In evaluating these matters with respect to a particular convertible security, the Adviser considers numerous factors, including the economic and political outlook, the value of the security relative to other investment alternatives, trends in the determinants of the issuer's profits, and the issuer's management capability and practices.

Other Investment Companies

The Funds may invest in shares of other investment companies, including money market mutual funds, other mutual funds or exchange-traded funds (“ETFs”). The Funds’ investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses. The Funds limit their investments in securities issued by other investment companies in accordance with the 1940 Act. Section 12(d)(1) of the 1940 Act precludes a Fund from acquiring (i) more than 3% of the total outstanding shares of another investment company; (ii) shares of another investment company having an aggregate value in excess of 5% of the value of the total assets of a Fund; or (iii) shares of another registered investment company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of a Fund. However, Section 12(d)(1)(F) of the 1940 Act provides that the provisions of paragraph 12(d)(1) shall not apply to securities purchased or otherwise acquired by a Fund if (i) immediately after such purchase or acquisition not more than 3% of the total outstanding shares of such investment company is owned by such Fund and all affiliated persons of such Fund; and (ii) a Fund has not offered or sold, and is not proposing to offer or sell its shares through a principal underwriter or otherwise at a public or offering price that includes a sales load of more than 1 1/2%.

If a Fund invests in investment companies, including ETFs, pursuant to Section 12(d)(1)(F), it must comply with the following voting restrictions: when such Fund exercises voting rights, by proxy or otherwise, with respect to investment companies owned by that Fund, the Fund will either seek instruction from the Fund’s shareholders with regard to the voting of all proxies and vote in accordance with such instructions, or vote the shares held by the Fund in the same proportion as the vote of all other holders of such security. In addition, an investment company purchased by a Fund pursuant to Section 12(d)(1)(F) shall not be required to redeem its shares in an amount exceeding 1% of such investment company’s total outstanding shares in any period of less than thirty days. In addition to the advisory and operational fees the Funds bear directly in connection with their own operation, the Funds also bear their pro rata portion of the advisory and operational expenses of each other investment company.

Exchange-Traded Funds

An ETF generally is an open-end investment company, unit investment trust or a portfolio of securities deposited with a depository in exchange for depository receipts. The portfolios of ETFs generally consist of common stocks that closely track the performance and dividend yield of specific securities indices, either broad market, sector or international. ETFs provide investors the opportunity to buy or sell throughout the day an entire portfolio of stocks in a single security. Although index mutual funds are similar, they are generally sold and redeemed only once per day at market close. Broad securities market index ETFs include Standard & Poor’s Depository Receipts (“SPDRs”), which are interests in a unit investment trust representing an undivided interest in a portfolio of all of the common stocks of the S&P 500[®] Index. The ETFs in which the Funds invest are subject to liquidity risk. Liquidity risk exists when particular investments are difficult to purchase or sell, possibly preventing the sale of the security at an advantageous time or price. To the extent that the ETFs in which the Funds invest hold securities of companies with smaller market capitalizations or securities with substantial market risk, they will have a greater exposure to liquidity risk.

Foreign Investments and Currencies

The Funds may invest in securities of foreign issuers that are not publicly traded in the United States, purchase and sell foreign currency on a spot basis and enter into forward currency contracts (see “Forward Currency Contracts,” below). The Funds may also invest in American Depositary Receipts (“ADRs”) and foreign securities that are publicly traded on a U.S. exchange. Investments in ADRs and foreign securities involve certain inherent risks, including the following:

Depository Receipts. The Funds may invest their assets in securities of foreign issuers in the form of depository receipts, including ADRs, which are securities representing securities of foreign issuers. A purchaser of unsponsored depository receipts may not have unlimited voting rights and may not receive as much information about the issuer of the underlying securities as with a sponsored depository receipt. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities. For purposes of the Funds' investment policies, ADRs are deemed to have the same classification as the underlying securities they represent. Thus, an ADR representing ownership of common stock will be treated as common stock.

Political and Economic Factors. Individual foreign economies of certain countries may differ favorably or unfavorably from the U.S. economy in such respects as growth of gross national product, rate of inflation, capital reinvestment, resource self-sufficiency, diversification and balance of payments position. The internal politics of certain foreign countries may not be as stable as those of the United States. Governments in certain foreign countries also continue to participate to a significant degree, through ownership interest or regulation, in their respective economies. Action by these governments could include restrictions on foreign investment, nationalization, expropriation of goods or imposition of taxes, and could have a significant effect on market prices of securities and payment of interest. The economies of many foreign countries are heavily dependent upon international trade and are accordingly affected by the trade policies and economic conditions of their trading partners. Enactment by these trading partners of protectionist trade legislation could have a significant adverse effect upon the securities markets of such countries.

Currency Fluctuations. The Funds may invest in securities denominated in foreign currencies. Accordingly, a change in the value of any such currency against the U.S. dollar will result in a corresponding change in the U.S. dollar value of a Fund's assets denominated in that currency. Such changes will also affect the Fund's income. The value of a Fund's assets may also be affected significantly by currency restrictions and exchange control regulations enacted from time to time.

Market Characteristics. The Adviser expects that many foreign securities in which the Funds may invest could be purchased in over-the-counter markets or on exchanges located in the countries in which the principal offices of the issuers of the various securities are located, if that is the best available market. Foreign exchanges and markets may be more volatile than those in the United States. While growing in volume, they usually have substantially less volume than U.S. markets, and the Funds' foreign securities may be less liquid and more volatile than U.S. securities. Moreover, settlement practices for transactions in foreign markets may differ from those in U.S. markets, and may include delays beyond periods customary in the United States. Foreign security trading practices, including those involving securities settlement where Fund assets may be released prior to receipt of payment or securities, may expose the Funds to increased risk in the event of a failed trade or the insolvency of a foreign broker-dealer.

Legal and Regulatory Matters. Certain foreign countries may have less supervision of securities markets, brokers and issuers of securities, and less financial information available from issuers, than is available in the United States.

Taxes. The interest and dividends payable on certain of the Funds' foreign portfolio securities may be subject to foreign withholding taxes, thus reducing the net amount of income available for distribution to Fund shareholders.

Costs. To the extent that a Fund invests in foreign securities, its expense ratio is likely to be higher than those of investment companies investing only in domestic securities, because the cost of maintaining the custody of foreign securities is higher.

Emerging Markets. Each Fund may invest up to 25% of its net assets in securities of companies located in developing or emerging markets, which entail additional risks, including less social, political and economic stability; smaller securities markets and lower trading volume, which may result in less liquidity and greater price volatility; national policies that may restrict a Fund's investment opportunities, including restrictions on investments in issuers or industries, or expropriation or confiscation of assets or property; and less developed legal structures governing private or foreign investment.

In considering whether to invest in the securities of a foreign company, the Adviser considers such factors as the characteristics of the particular company, differences between economic trends and the performance of securities markets within the U.S. and those within other countries, and also factors relating to the general economic, governmental and social conditions of the country or countries where the company is located. The extent to which the Funds will be invested in foreign companies and countries and depositary receipts will fluctuate from time to time within the limitations described in the Prospectus, depending on the Adviser's assessment of prevailing market, economic and other conditions.

Short Sales

The Funds may engage in short sales of securities, provided the securities are fully listed on a national securities exchange. In a short sale, a Fund sells a security that it does not own, in anticipation of a decline in the market value of the security. To complete the transaction, the Fund must borrow the security to make delivery to the buyer. The Fund is then obligated to replace the security borrowed by purchasing it at the market price at the time of replacement. This price may be more or less than the price at which the security was sold by the Fund. The Fund will incur a loss on a short sale if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. The Fund will realize a gain if the security declines in price between those dates. The amount of any gain will be decreased, and the amount of any loss increased, by the amount of the premium, dividends, interest or expenses the Fund may be required to pay in connection with the short sale.

Typically, the Funds will segregate liquid assets, which are marked-to-market daily, equal to the difference between (a) the market value of the securities sold short at the time they were sold short and (b) the value of the collateral deposited with the broker in connection with the short sale (not including the proceeds from the short sale). While the short position is open, the Funds must maintain segregated assets at such a level that the amount segregated plus the amount deposited with the broker as collateral equal the current market value of the securities sold short.

Options, Futures and Other Strategies

General. The Funds may use certain options (both traded on an exchange and over-the-counter ("OTC")), futures contracts (sometimes referred to as "futures") and options on futures contracts (collectively, "Financial Instruments") as a substitute for a comparable market position in the underlying security, to attempt to hedge or limit the exposure a Fund's position, to create a synthetic money market position, for certain tax-related purposes and to effect closing transactions.

The use of Financial Instruments is subject to applicable regulations of the SEC, the several exchanges upon which they are traded and the Commodity Futures Trading Commission (the "CFTC"). In addition, a Fund's ability to use Financial Instruments will be limited by tax considerations (see "Federal Income Tax Matters").

In addition to the instruments, strategies and risks described below and in the Prospectus, the Adviser may discover additional opportunities in connection with Financial Instruments and other similar or related techniques. These new opportunities may become available as the Adviser develops new techniques, as regulatory authorities broaden the range of permitted transactions and as new Financial Instruments or other techniques are developed. The Adviser may utilize these opportunities to the extent

that they are consistent with the Funds' investment objectives and permitted by the Funds' investment limitations and applicable regulatory authorities. The Prospectus or this SAI will be supplemented to the extent that new products or techniques involve materially different risks than those described below or in the Prospectus.

Special Risks. The use of Financial Instruments involves special considerations and risks, certain of which are described below. Risks pertaining to particular Financial Instruments are described in the sections that follow.

(1) Successful use of most Financial Instruments depends upon the Adviser's ability to predict movements of the overall securities markets, which requires different skills than predicting changes in the prices of individual securities. The ordinary spreads between prices in the cash and futures markets, due to the differences in the natures of those markets, are subject to distortion. Due to the possibility of distortion, a correct forecast of stock market trends by the Adviser may still not result in a successful transaction. The Adviser may be incorrect in its expectations as to the extent of market movements or the time span within which the movements take place, which, thus, may result in the strategy being unsuccessful.

(2) Options and futures prices can diverge from the prices of their underlying instruments. Options and futures prices are affected by such factors as current and anticipated short-term interest rates, changes in volatility of the underlying instrument and the time remaining until expiration of the contract, which may not affect security prices the same way. Imperfect or no correlation also may result from differing levels of demand in the options and futures markets and the securities markets, from structural differences in how options and futures and securities are traded, and from imposition of daily price fluctuation limits or trading halts.

(3) As described below, the Funds might be required to maintain assets as "cover," maintain segregated accounts or make margin payments when they take positions in Financial Instruments involving obligations to third parties (*e.g.*, Financial Instruments other than purchased options). If the Funds were unable to close out their positions in such Financial Instruments, they might be required to continue to maintain such assets or accounts or make such payments until the position expired or matured. These requirements might impair a Fund's ability to sell a portfolio security or make an investment when it would otherwise be favorable to do so or require that the Fund sells a portfolio security at a disadvantageous time. The Funds' ability to close out a position in a Financial Instrument prior to expiration or maturity depends on the existence of a liquid secondary market or, in the absence of such a market, the ability and willingness of the other party to the transaction (the "counter-party") to enter into a transaction closing out the position. Therefore, there is no assurance that any position can be closed out at a time and price that is favorable to the Funds.

(4) Losses may arise due to unanticipated market price movements, lack of a liquid secondary market for any particular instrument at a particular time or due to losses from premiums paid by the Funds on options transactions.

Cover. Transactions using Financial Instruments, other than purchased options, expose the Funds to an obligation to another party. A Fund will not enter into any such transactions unless it owns either (1) an offsetting ("covered") position in securities or other options or futures contracts or (2) cash and liquid assets with a value, marked-to-market daily, sufficient to cover its potential obligations to the extent not covered as provided in (1) above. The Funds will comply with SEC guidelines regarding cover for these instruments and will, if the guidelines so require, set aside cash or liquid assets in an account with their custodian, U.S. Bank, N.A. (the "Custodian"), in the prescribed amount as determined daily.

Assets used as cover or held in an account cannot be sold while the position in the corresponding Financial Instrument is open, unless they are replaced with other appropriate assets. As a result, the commitment of a large portion of a Fund's assets to cover accounts could impede portfolio management or the Fund's ability to meet redemption requests or other current obligations.

Options. The value of an option position will reflect, among other things, the current market value of the underlying investment, the time remaining until expiration, the relationship of the exercise price to the market price of the underlying investment and general market conditions. Options that expire unexercised have no value. Options currently are traded on the Chicago Board Options Exchange, the NYSE Amex Options exchange and other exchanges, as well as the OTC markets.

By buying a call option on a security, the Funds have the right, in return for the premium paid, to buy the security underlying the option at the exercise price. By writing (selling) a call option and receiving a premium, the Funds become obligated during the term of the option to deliver securities underlying the option at the exercise price if the option is exercised. By buying a put option, the Funds have the right, in return for the premium, to sell the security underlying the option at the exercise price. By writing a put option, the Funds become obligated during the term of the option to purchase the securities underlying the option at the exercise price.

Because options premiums paid or received by the Funds are small in relation to the market value of the investments underlying the options, buying and selling put and call options can be more speculative than investing directly in securities.

The Funds may effectively terminate their right or obligation under an option by entering into a closing transaction. For example, the Funds may terminate their obligation under a call or put option that they had written by purchasing an identical call or put option. This is known as a closing purchase transaction. Conversely, the Funds may terminate a position in a put or call option they had purchased by writing an identical put or call option. This is known as a closing sale transaction. Closing transactions permit the Funds to realize profits or limit losses on an option position prior to its exercise or expiration.

Risks of Options on Commodities, Currencies and Securities. Exchange-traded options in the United States are issued by a clearing organization affiliated with the exchange on which the option is listed that, in effect, guarantees completion of every exchange-traded option transaction. In contrast, OTC options are contracts between a Fund and its counter-party (usually a securities dealer or a bank) with no clearing organization guarantee. Thus, when a Fund purchases an OTC option, it relies on the counter-party from whom it purchased the option to make or take delivery of the underlying investment upon exercise of the option. Failure by the counter-party to do so would result in the loss of any premium paid by a Fund as well as the loss of any expected benefit of the transaction.

A Fund's ability to establish and close out positions in exchange-traded options depends on the existence of a liquid market. However, there can be no assurance that such a market will exist at any particular time. Closing transactions can be made for OTC options only by negotiating directly with the counter-party or by a transaction in the secondary market if any such market exists. There can be no assurance that the Funds will in fact be able to close out an OTC option position at a favorable price prior to expiration. In the event of insolvency of the counter-party, the Funds might be unable to close out an OTC option position at any time prior to its expiration.

If the Funds were unable to effect a closing transaction for an option they had purchased, they would have to exercise the option to realize any profit. The inability to enter into a closing purchase transaction for a covered call option written by the Funds could cause material losses because the Funds would be unable to sell the investment used as cover for the written option until the option expires or is exercised.

Options on Indices. An index fluctuates with changes in the market values of the securities included in the index. Options on indices give the holder the right to receive an amount of cash upon exercise of the option. Receipt of this cash amount will depend upon the closing level of the index upon which the option is based being greater than (in the case of a call) or less than (in the case of put) the exercise price of the option. Some stock index options are based on a broad market index such as the S&P 500[®] Index, the NYSE Composite Index or the NYSE Arca Major Market Index or on a narrower index such as the Philadelphia Stock Exchange Over-the-Counter Index.

Each of the exchanges has established limitations governing the maximum number of call or put options on the same index that may be bought or written by a single investor, whether acting alone or in concert with others (regardless of whether such options are written on the same or different exchanges or are held or written on one or more accounts or through one or more brokers). Under these limitations, option positions of all investment companies advised by the Adviser are combined for purposes of these limits. Pursuant to these limitations, an exchange may order the liquidation of positions and may impose other sanctions or restrictions. These position limits may restrict the number of listed options that the Funds may buy or sell.

Puts and calls on indices are similar to puts and calls on securities or futures contracts except that all settlements are in cash and gain or loss depends on changes in the index in question rather than on price movements in individual securities or futures contracts. When the Funds write a call on an index, they receive a premium and agree that, prior to the expiration date, the purchaser of the call, upon exercise of the call, will receive from the Funds an amount of cash if the closing level of the index upon which the call is based is greater than the exercise price of the call. The amount of cash is equal to the difference between the closing price of the index and the exercise price of the call times a specified multiple (“multiplier”), which determines the total value for each point of such difference. When the Funds buy a call on an index, they pay a premium and have the same rights to such call as are indicated above. When the Funds buy a put on an index, they pay a premium and have the right, prior to the expiration date, to require the seller of the put, upon the Funds’ exercise of the put, to deliver to the Funds an amount of cash if the closing level of the index upon which the put is based is less than the exercise price of the put, which amount of cash is determined by the multiplier, as described above for calls. When the Funds write a put on an index, they receive a premium and the purchaser of the put has the right, prior to the expiration date, to require the Funds to deliver to it an amount of cash equal to the difference between the closing level of the index and the exercise price times the multiplier if the closing level is less than the exercise price.

Risks of Options on Indices. If the Funds have purchased an index option and exercise it before the closing index value for that day is available, they run the risk that the level of the underlying index may subsequently change. If such a change causes the exercised option to fall out-of-the-money, the Funds will be required to pay the difference between the closing index value and the exercise price of the option (times the applicable multiplier) to the assigned writer.

OTC Options. Unlike exchange-traded options, which are standardized with respect to the underlying instrument, expiration date, contract size and strike price, the terms of OTC options (options not traded on exchanges) generally are established through negotiation with the other party to the option contract. While this type of arrangement allows the Funds great flexibility to tailor the option to their need, OTC options generally involve greater risk than exchange-traded options, which are guaranteed by the clearing organization of the exchanges where they are traded.

Futures Contracts and Options on Futures Contracts. A futures contract obligates the seller to deliver (and the purchaser to take delivery of) the specified security on the expiration date of the contract. An index futures contract obligates the seller to deliver (and the purchaser to take) an amount of cash equal to

a specific dollar amount times the difference between the value of a specific index at the close of the last trading day of the contract and the price at which the agreement is made. No physical delivery of the underlying securities in the index is made.

When the Funds write an option on a futures contract, they become obligated, in return for the premium paid, to assume a position in the futures contract at a specified exercise price at any time during the term of the option. If the Funds write a call, they assume a short futures position. If they write a put, they assume a long futures position. When the Funds purchase an option on a futures contract, they acquire the right in return for the premium they pay to assume a position in a futures contract (a long position if the option is a call and a short position if the option is a put).

Whether the Funds realize a gain or loss from futures activities depends upon movements in the underlying security or index. The extent of a Fund's loss from an unhedged short position in futures contracts or from writing unhedged call options on futures contracts is potentially unlimited. The Funds only purchase and sell futures contracts and options on futures contracts that are traded on a U.S. exchange or board of trade.

No price is paid upon entering into a futures contract. Instead, at the inception of a futures contract the Funds are required to deposit "initial margin" in an amount generally equal to 10% or less of the contract value. Margin also must be deposited when writing a call or put option on a futures contract, in accordance with applicable exchange rules. Unlike margin in securities transactions, initial margin does not represent a borrowing, but rather is in the nature of a performance bond or good-faith deposit that is returned to the Funds at the termination of the transaction if all contractual obligations have been satisfied. Under certain circumstances, such as periods of high volatility, the Funds may be required by an exchange to increase the level of their initial margin payment, and initial margin requirements might be increased generally in the future by regulatory action.

Subsequent "variation margin" payments are made to and from the futures commission merchant daily as the value of the futures position varies, a process known as "marking-to-market." Variation margin does not involve borrowing, but rather represents a daily settlement of the Funds' obligations to or from a futures commission merchant. When the Funds purchase an option on a futures contract, the premium paid plus transaction costs is all that is at risk. In contrast, when the Funds purchase or sell a futures contract or write a call or put option thereon, they are subject to daily variation margin calls that could be substantial in the event of adverse price movements. If the Funds have insufficient cash to meet daily variation margin requirements, they might need to sell securities at a time when such sales are disadvantageous.

Purchasers and sellers of futures contracts and options on futures can enter into offsetting closing transactions, similar to closing transactions in options, by selling or purchasing, respectively, an instrument identical to the instrument purchased or sold. Positions in futures and options on futures contracts may be closed only on an exchange or board of trade that provides a secondary market. However, there can be no assurance that a liquid secondary market will exist for a particular contract at a particular time. In such event, it may not be possible to close a futures contract or options position.

Under certain circumstances, futures exchanges may establish daily limits on the amount that the price of a futures contract or an option on a futures contract can vary from the previous day's settlement price. Once that limit is reached, no trades may be made that day at a price beyond the limit. Daily price limits do not limit potential losses because prices could move to the daily limit for several consecutive days with little or no trading, thereby preventing liquidation of unfavorable positions.

If the Funds were unable to liquidate a futures contract or an option on a futures position due to the absence of a liquid secondary market or the imposition of price limits, they could incur substantial losses. The Funds would continue to be subject to market risk with respect to the position. In addition, except in the case of purchased options, the Funds would continue to be required to make daily variation margin payments and might be required to maintain cash or liquid assets in an account.

Risks of Futures Contracts and Options Thereon. The ordinary spreads between prices in the cash and futures markets (including the options on futures markets), due to differences in the natures of those markets, are subject to the following factors, which may create distortions. First, all participants in the futures market are subject to margin deposit and maintenance requirements. Rather than meeting additional margin deposit requirements, investors may close futures contracts through offsetting transactions, which could distort the normal relationships between the cash and futures markets. Second, the liquidity of the futures market depends on participants entering into offsetting transactions rather than making or taking delivery. To the extent participants decide to make or take delivery, liquidity in the futures market could be reduced, thus producing distortion. Third, from the point of view of speculators, the deposit requirements in the futures market are less onerous than margin requirements in the securities market. Therefore, increased participation by speculators in the futures market may cause temporary price distortions.

Combined Positions. A Fund may purchase and write options in combination with each other. For example, a Fund may purchase a put option and write a call option on the same underlying instrument in order to construct a combined position whose risk and return characteristics are similar to selling a futures contract. Another possible combined position would involve writing a call option at one strike price and buying a call option at a lower price, in order to reduce the risk of the written call option in the event of a substantial price increase. Because combined options positions involve multiple trades, they result in higher transaction costs and may be more difficult to open and close out.

Warrants and Rights

The Funds may purchase warrants and rights, which are instruments that permit the Funds to acquire, by subscription, the capital stock of a corporation at a set price, regardless of the market price for such stock. Warrants may be either perpetual or of limited duration, but they usually do not have voting rights or pay dividends. The market price of warrants is usually significantly less than the current price of the underlying stock. Thus, there is a greater risk that warrants might drop in value at a faster rate than the underlying stock.

U.S. Government Obligations

The Funds may invest in U.S. Government obligations. U.S. Government obligations include securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities. U.S. Treasury obligations differ mainly in the length of their maturity. Treasury bills, the most frequently issued marketable government securities, have a maturity of up to one year and are issued on a discount basis. U.S. Government obligations also include securities issued or guaranteed by federal agencies or instrumentalities, including government-sponsored enterprises.

Payment of principal and interest on U.S. Government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. Government would provide financial support to its agencies or instrumentalities (including government-sponsored enterprises) where it is not obligated to do so. See “Agency Obligations,” below. In addition, U.S. Government obligations are subject to fluctuations in market value due to fluctuations in market interest

rates. As a general matter, the value of debt instruments, including U.S. Government obligations, declines when market interest rates increase and rises when market interest rates decrease. Certain types of U.S. Government obligations are subject to fluctuations in yield or value due to their structure or contract terms.

Agency Obligations

The Funds may invest in agency obligations, such as the Export-Import Bank of the United States, Tennessee Valley Authority, Resolution Funding Corporation, Farmers Home Administration, Federal Home Loan Banks, Federal Intermediate Credit Banks, Federal Farm Credit Banks, Federal Land Banks, Federal Housing Administration, Government National Mortgage Association (“GNMA”), commonly known as “Ginnie Mae,” Federal National Mortgage Association (“FNMA”), commonly known as “Fannie Mae,” Federal Home Loan Mortgage Corporation (“FHLMC”), commonly known as “Freddie Mac,” and the Student Loan Marketing Association (“SLMA”). Some, such as those of the Export-Import Bank of United States, are supported only by the right of the issuer to borrow from the Treasury; others, such as those of the FNMA and FHLMC, are supported by only the discretionary authority of the U.S. government to purchase the agency’s obligations; still others, such as those of the SLMA, are supported only by the credit of the instrumentality. No assurance can be given that the U.S. government would provide financial support to U.S. government-sponsored instrumentalities because they are not obligated by law to do so. As a result, there is a risk that these entities will default on a financial obligation. For instance, in September 2008, at the direction of the U.S. Treasury, FNMA and FHLMC were placed into conservatorship under the Federal Housing Finance Agency (“FHFA”), a newly created independent regulator.

When-Issued Securities

When-issued securities transactions involve a commitment by the Funds to purchase or sell particular securities with payment and delivery taking place at a future date, and permit the Funds to lock in a price or yield on a security they own or intend to purchase, regardless of future changes in interest rates or market action. No income accrues to the purchaser of a security on a when-issued basis prior to delivery. Such securities are recorded as an asset and are subject to changes in value based upon changes in the general level of interest rates. Purchasing a security on a when-issued basis can involve a risk that the market price at the time of delivery may be lower than the agreed-upon purchase price, in which case there could be an unrealized loss at the time of delivery. The Funds will only make commitments to purchase securities on a when-issued basis with the intention of actually acquiring the securities, but may sell them before the settlement date if it is deemed advisable. The Funds will establish in a segregated account, or earmark as segregated on the books of the Custodian, an amount of liquid assets equal to 102% of the amount of their commitment to purchase securities on a when-issued basis. These assets will be marked-to-market daily, and the Funds will increase the aggregate value of the assets, as necessary, to ensure that the assets are at least equal to 102% of the amount of the Funds’ commitments.

Exchange-Traded Notes

The Funds may also invest in shares of exchange-traded notes (“ETNs”). ETNs are a type of unsecured, unsubordinated debt security that combine certain aspects of bonds and ETFs. Similar to ETFs, ETNs are traded on a major exchange (e.g., NYSE) during normal trading hours. However, investors can also hold the ETN until maturity. At maturity, the issuer pays to the investor a cash amount equal to principal amount, subject to the day’s index factor. ETN returns are based upon the performance of a market index minus applicable fees. ETNs do not make periodic coupon payments and provide no principal protection. The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying commodities markets, changes in the applicable interest rates, changes in the issuer’s credit rating and economic, legal, political or geographic events that affect the referenced commodity. The value of the ETN may drop due to a downgrade in the issuer’s credit rating, despite the underlying index remaining unchanged. Private letter rulings issued by the Internal Revenue

Service (“IRS”) have ruled that certain ETNs that track commodity indices generate qualifying income under Section 851(b)(2) of the Internal Revenue Code of 1986, as amended (the “Code”). Private letter rulings may be relied upon only by the taxpayer that requested the ruling. There can be no assurance that the IRS would not take a different position with respect to the Funds’ investments in ETNs.

Initial Public Offerings

The Funds may invest in securities of companies in initial public offerings (“IPOs”). Because IPO shares frequently are volatile in price, the Funds may hold IPO shares for a very short period of time. This may increase the turnover of the Funds’ portfolios and may lead to increased expenses to the Funds, such as commissions and transaction costs. By selling IPO shares, the Funds may realize taxable short-term capital gains that they will subsequently distribute to shareholders. Investing in IPOs has added risks because their shares are frequently volatile in price. As a result, their performance can be more volatile and they face greater risk of business failure, which could increase the volatility of a Fund’s portfolio.

Private Placements and Restricted Securities

The Funds may invest in restricted securities (securities with limited transferability under the securities laws) acquired from the issuer in “private placement” transactions. Private placement securities are not registered under the Securities Act of 1933, as amended (the “Securities Act”), and are subject to restrictions on resale. They are eligible for sale only to certain qualified institutional buyers, like the Funds, and are not sold on a trading market or exchange. While private placement securities offer attractive investment opportunities otherwise not available on an open market, because such securities are available to few buyers, they are often both difficult to sell and to value. Certain of the Funds’ investments may be placed in smaller, less seasoned, issuers that present a greater risk due to limited product lines and/or financial resources. The issuer of privately placed securities may not be subject to the disclosure and other investor protection requirements of a public trade. Additionally, the Funds could obtain material non-public information from the issuer of such securities that would restrict the Funds’ ability to conduct portfolio transactions.

Privately placed securities can usually only be resold to other qualified institutional buyers, or in a private transaction, or to a limited number of purchasers, or in a limited quantities after they have been held for a specified period of time and other conditions are met pursuant to an exemption from registration. The Funds may incur more cost in the disposition of such securities because of the time and legal expense required to negotiate a private placement. Because of the limited market, the Funds may find it difficult to sell the securities when they find it advisable to do so and, to the extent such securities are sold in private negotiations, they may be sold for less than the price for which they were purchased or less than their fair market value.

Privately placed securities cannot be resold to the public unless they have been registered under the Securities Act or pursuant to an exemption, such as Rule 144A. Although securities which may be resold only to “qualified institutional buyers” in accordance with the provisions of Rule 144A under the Securities Act are technically considered “restricted securities,” the Funds may purchase Rule 144A securities without regard to the Funds’ limitation on investments in illiquid securities set forth in the non-fundamental investment restrictions described below, provided that a determination is made that such securities have a readily available trading market. The Funds may also purchase certain commercial paper issued in reliance on the exemption from regulations in Section 4(2) of the Securities Act (“4(2) Paper”). The Adviser will determine the liquidity of Rule 144A securities and 4(2) Paper under the supervision of the Board of Trustees. The liquidity of Rule 144A securities and 4(2) Paper will be monitored by the Adviser, and if as a result of changed conditions it is determined that a Rule 144A security or 4(2) Paper is no longer liquid, the Funds’ holdings of illiquid securities will be reviewed to determine what, if any, action is required to assure that the Funds do not exceed their applicable percentage limitation for investments in illiquid securities.

Temporary Strategies; Cash or Similar Investments

For temporary defensive purposes, the Adviser may invest up to 100% of a Fund's total assets in high-quality, short-term debt securities and money market instruments. These short-term debt securities and money market instruments include shares of other mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. Taking a temporary defensive position may result in a Fund not achieving its investment objective.

For longer periods of time, a Fund may hold a substantial cash position. If the market advances during periods when a Fund is holding a large cash position, the Fund may not participate to the extent it would have if the Fund had been more fully invested, and this may result in the Fund not achieving its investment objective during that period. To the extent that a Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's advisory fees and operational expenses.

The Funds may invest in any of the following securities and instruments:

Money Market Mutual Funds. The Funds may invest in money market mutual funds in connection with their management of daily cash positions or as a temporary defensive measure. Generally, money market mutual funds seek to earn income consistent with the preservation of capital and maintenance of liquidity. They primarily invest in high quality money market obligations, including securities issued or guaranteed by the U.S. Government or its agencies and instrumentalities, bank obligations and high-grade corporate instruments. These investments generally mature within 397 days from the date of purchase. An investment in a money market mutual fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any government agency. The Funds' investments in money market mutual funds may be used for cash management purposes and to maintain liquidity in order to satisfy redemption requests or pay unanticipated expenses.

Your cost of investing in the Funds will generally be higher than the cost of investing directly in the underlying money market mutual fund shares. You will indirectly bear fees and expenses charged by the underlying money market mutual funds in addition to the Funds' direct fees and expenses. Furthermore, the use of this strategy could affect the timing, amount and character of distributions to you and therefore may increase the amount of taxes payable by you.

Bank Certificates of Deposit, Bankers' Acceptances and Time Deposits. The Funds may acquire certificates of deposit, bankers' acceptances and time deposits. Certificates of deposit are negotiable certificates issued against monies deposited in a commercial bank for a definite period of time and earning a specified return. Bankers' acceptances are negotiable drafts or bills of exchange, normally drawn by an importer or exporter to pay for specific merchandise, which are "accepted" by a bank, meaning in effect that the bank unconditionally agrees to pay the face value of the instrument on maturity. Certificates of deposit and bankers' acceptances acquired by the Funds will be dollar-denominated obligations of domestic or foreign banks or financial institutions which at the time of purchase have capital, surplus and undivided profits in excess of \$100 million (including assets of both domestic and foreign branches), based on latest published reports, or less than \$100 million if the principal amount of such bank obligations are fully insured by the U.S. Government.

Domestic banks and foreign banks are subject to different governmental regulations with respect to the amount and types of loans that may be made and interest rates that may be charged. In addition, the profitability of the banking industry depends largely upon the availability and cost of funds for the purpose of financing lending operations under prevailing money market conditions. General economic conditions as well as exposure to credit losses arising from possible financial difficulties of borrowers play an important part in the operations of the banking industry.

As a result of federal and state laws and regulations, domestic banks are, among other things, required to maintain specified levels of reserves, limited in the amount which they can loan to a single borrower and subject to other regulations designed to promote financial soundness. However, such laws and regulations do not necessarily apply to foreign bank obligations that the Funds may acquire.

In addition to purchasing certificates of deposit and bankers' acceptances, to the extent permitted under the investment objectives and policies stated above and in the Prospectus, the Funds may make interest-bearing time or other interest-bearing deposits in commercial or savings banks. Time deposits are non-negotiable deposits maintained at a banking institution for a specified period of time at a specified interest rate.

Savings Association Obligations. The Funds may invest in certificates of deposit (interest-bearing time deposits) issued by savings banks or savings and loan associations that have capital, surplus and undivided profits in excess of \$100 million, based on latest published reports, or less than \$100 million if the principal amount of such obligations is fully insured by the U.S. Government.

Commercial Paper, Short-Term Notes and Other Corporate Obligations. The Funds may invest a portion of their assets in commercial paper and short-term notes. Commercial paper consists of unsecured promissory notes issued by corporations. Issues of commercial paper and short-term notes will normally have maturities of less than nine months and fixed rates of return, although such instruments may have maturities of up to one year.

Commercial paper and short-term notes will consist of issues rated at the time of purchase "A-2" or higher by S&P, "Prime-1" or "Prime-2" by Moody's, or similarly rated by another nationally recognized statistical rating organization or, if unrated, will be determined by the Adviser to be of comparable quality.

Corporate obligations include bonds and notes issued by corporations to finance longer-term credit needs than supported by commercial paper. While such obligations generally have maturities of ten years or more, the Funds may purchase corporate obligations which have remaining maturities of one year or less from the date of purchase and which are rated "A" or higher by S&P or "A" or higher by Moody's.

Securities Lending

Each Fund may lend securities from its portfolio to brokers, dealers and financial institutions (but not individuals) in order to increase the return on its portfolio. The value of the loaned securities may not exceed one-third of a Fund's total net assets and loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. The Funds will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, a Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. The Funds may pay reasonable administrative and custodial fees in connection with loans of portfolio securities and may pay a portion of the interest or fee earned thereon to the borrower or a placing broker.

In determining whether or not to lend a security to a particular broker, dealer or financial institution, the Adviser considers all relevant facts and circumstances, including the size, creditworthiness and reputation of the broker, dealer or financial institution. Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that a Fund may receive as collateral will not become part of a Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, a Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which a Fund is permitted to invest. During the time securities are on loan, the borrower will pay the Funds any accrued income on those securities, and the Funds may invest the cash collateral

and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral. The Funds will be responsible for the risks associated with the investment of the cash collateral, including the risk that the Funds may lose money on the investment or may fail to earn sufficient income to meet their obligation to the borrower. Any fee income received from a borrower in lieu of a dividend payment on a borrowed security will not constitute “qualified dividend” income for federal income tax purposes, which is generally taxed at the same rates as long-term capital gains for federal income tax purposes. While the Funds do not have the right to vote securities on loan, they would terminate the loan and regain the right to vote if that were considered important with respect to the investment.

Repurchase Agreements

The Funds may enter into repurchase agreements. Under such agreements, the seller of the security agrees to repurchase it at a mutually agreed upon time and price. The repurchase price may be higher than the purchase price, the difference being income to the Funds, or the purchase and repurchase prices may be the same, with interest at a stated rate due to the Funds together with the repurchase price on repurchase. In either case, the income to the Funds is unrelated to the interest rate on the security itself. Such repurchase agreements will be made only with banks with assets of \$500 million or more that are insured by the Federal Deposit Insurance Corporation or with Government securities dealers recognized by the Federal Reserve Board and registered as broker-dealers with the SEC or exempt from such registration. The Funds will generally enter into repurchase agreements of short durations, from overnight to one week, although the underlying securities generally have longer maturities. The Funds may not enter into a repurchase agreement with more than seven days to maturity if, as a result, more than 5% of the value of a Fund’s net assets would be invested in illiquid securities including such repurchase agreements.

For purposes of the 1940 Act, a repurchase agreement is deemed to be a loan from a Fund to the seller of the U.S. Government security that is subject to the repurchase agreement. It is not clear whether a court would consider the U.S. Government security acquired by a Fund subject to a repurchase agreement as being owned by a Fund or as being collateral for a loan by a Fund to the seller. In the event of the commencement of bankruptcy or insolvency proceedings with respect to the seller of the U.S. Government security before its repurchase under a repurchase agreement, a Fund could encounter delays and incur costs before being able to sell the security. Delays may involve loss of interest or a decline in price of the U.S. Government security. If a court characterizes the transaction as a loan and a Fund has not perfected a security interest in the U.S. Government security, a Fund may be required to return the security to the seller’s estate and be treated as an unsecured creditor of the seller. As an unsecured creditor, a Fund would be at the risk of losing some or all of the principal and income involved in the transaction. As with any unsecured debt instrument purchased for the Funds, the Adviser seeks to minimize the risk of loss through repurchase agreements by analyzing the creditworthiness of the other party, in this case the seller of the U.S. Government security.

Apart from the risk of bankruptcy or insolvency proceedings, there is also the risk that the seller may fail to repurchase the security. However, a Fund will always receive as collateral for any repurchase agreement to which it is a party securities acceptable to the Adviser, the market value of which is equal to at least 100% of the amount invested by a Fund plus accrued interest, and a Fund will make payment against such securities only upon physical delivery or evidence of book entry transfer to the account of its Custodian. If the market value of the U.S. Government security subject to the repurchase agreement becomes less than the repurchase price (including interest), a Fund will direct the seller of the U.S. Government security to deliver additional securities so that the market value of all securities subject to the repurchase agreement will equal or exceed the repurchase price. It is possible that a Fund could be unsuccessful in seeking to enforce on the seller a contractual obligation to deliver additional securities.

Reverse Repurchase Agreements

The Funds may borrow by entering into reverse repurchase agreements with the same parties with whom they may enter into repurchase agreements. Under a reverse repurchase agreement, a Fund sells securities and agrees to repurchase them at a mutually agreed to price. At the time a Fund enters into a reverse repurchase agreement, it will establish and maintain a segregated account with an approved custodian containing liquid high-grade securities, marked-to-market daily, having a value not less than the repurchase price (including accrued interest). Reverse repurchase agreements involve the risk that the market value of securities retained in lieu of sale by a Fund may decline below the price of the securities a Fund has sold but is obliged to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, such buyer or its trustee or receiver may receive an extension of time to determine whether to enforce a Fund's obligation to repurchase the securities. During that time, a Fund's use of the proceeds of the reverse repurchase agreement effectively may be restricted. Reverse repurchase agreements create leverage, a speculative factor, and are considered borrowings for the purpose of a Fund's limitation on borrowing.

Illiquid Securities

Historically, illiquid securities have included securities subject to contractual or legal restrictions on resale because they have not been registered under the Securities Act, securities which are otherwise not readily marketable, and securities such as repurchase agreements having a maturity of longer than seven days. Securities which have not been registered under the Securities Act are referred to as private placements or restricted securities and are purchased directly from the issuer or in the secondary market. In recent years, however, a large institutional market has developed for certain securities that are not registered under the Securities Act including repurchase agreements, commercial paper, foreign securities, municipal securities and corporate bonds and notes. Institutional investors depend on an efficient institutional market in which the unregistered security can be readily resold or on an issuer's ability to honor a demand for repayment. The fact that there are contractual or legal restrictions on resale to the general public or to certain institutions may not be indicative of the liquidity of such investments. The Board of Trustees may determine that such securities are not illiquid securities notwithstanding their legal or contractual restrictions on resale. In all other cases, however, securities subject to restrictions on resale will be deemed illiquid. A Fund will determine a security to be illiquid if it cannot be sold or disposed of in the ordinary course of business within seven days at the value at which a Fund has valued the security. Factors considered in determining whether a security is illiquid may include, but are not limited to: the frequency of trades and quotes for the security; the number of dealers willing to purchase and sell the security and the number of potential purchasers; the number of dealers who undertake to make a market in the security; the nature of the security, including whether it is registered or unregistered, and the market place; whether the security has been rated by an NRSRO; the period of time remaining until the maturity of a debt instrument or until the principal amount of a demand instrument can be recovered through demand; the nature of any restrictions on resale; and with respect to municipal lease obligations and certificates of participation, there is reasonable assurance that the obligation will remain liquid throughout the time the obligation is held and, if unrated, an analysis similar to that which would be performed by an NRSRO is performed. A Fund will not invest more than 15% of the value of its net assets, taken at the time of investment, in illiquid securities, including repurchase agreements providing for settlement in more than seven days after notice, non-negotiable fixed time deposits with maturities over seven days, over-the-counter options and certain restricted securities not determined by the Board of Trustees to be liquid.

Investment Restrictions

Fundamental Investment Restrictions

The Trust (on behalf of the Funds) has adopted the following restrictions as fundamental policies, which may not be changed without the favorable “vote of the holders of a majority of the outstanding voting securities” of the applicable Fund, as defined under the 1940 Act. Under the 1940 Act, the “vote of the holders of a majority of the outstanding voting securities” means the vote of the holders of the lesser of (i) 67% of the shares of a Fund represented at a meeting at which the holders of more than 50% of its outstanding shares are represented; or (ii) more than 50% of the outstanding shares of a Fund.

Each Fund may not:

1. issue senior securities, borrow money or pledge its assets, except that (i) a Fund may borrow from banks in amounts not exceeding one-third of its total assets (including the amount borrowed); and (ii) this restriction shall not prohibit a Fund from engaging in options transactions or short sales in accordance with its objectives and strategies;
2. underwrite the securities of other issuers (except that a Fund may engage in transactions involving the acquisition, disposition or resale of its portfolio securities under circumstances where it may be considered to be an underwriter under the Securities Act);
3. purchase or sell real estate or interests in real estate, unless acquired as a result of ownership of securities (although a Fund may purchase and sell securities which are secured by real estate and securities of companies that invest or deal in real estate);
4. purchase or sell commodities or commodities contracts, unless acquired as a result of ownership of securities or other instruments and provided that this restriction does not prevent a Fund from engaging in transactions involving currencies and futures contracts and options thereon or investing in securities or other instruments that are secured by commodities;
5. make loans of money (except for the lending of their portfolio securities and purchases of debt securities consistent with the investment policies of the applicable Fund);
6. with respect to 75% of its total assets, purchase the securities of any one issuer if, immediately after and as a result of such purchase, (a) the value of the Fund’s holdings in the securities of such issuer exceeds 5% of the value of the Fund’s total assets, or (b) the Fund owns more than 10% of the outstanding voting securities of the issuer (with the exception that this restriction does not apply to the Funds’ investments in the securities of the U.S. Government, or its agencies or instrumentalities, or other investment companies); or
7. invest in the securities of any one industry if, as a result, 25% or more of the Fund’s total assets would be invested in the securities of such industry, except that the foregoing does not apply to securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities.

Non-Fundamental Investment Restrictions

The following lists the non-fundamental investment restrictions applicable to the Funds. These restrictions can be changed by the Board of Trustees, but the change will only be effective after prior written notice is given to shareholders of the applicable Fund.

Each Fund may not:

1. invest more than 15% of the value of its net assets, computed at the time of investment, in illiquid securities. Illiquid securities are those securities without readily available market quotations, including repurchase agreements having a maturity of more than seven days. Illiquid securities may include restricted securities not determined by the Board of Trustees to be liquid, non-negotiable time deposits, over-the-counter options, and repurchase agreements providing for settlement in more than seven days after notice; or
2. make any change in its investment policy of investing at least 80% of net assets in investments suggested by the Fund's name without first changing the Fund's name and providing shareholders with at least 60 days' prior written notice.

Management of the Funds

Board of Trustees

The management and affairs of the Funds are supervised by the Board of Trustees. The Board of Trustees consists of four individuals. The Trustees are fiduciaries for the Fund's shareholders and are governed by the laws of the State of Delaware in this regard. The Board of Trustees establishes policies for the operation of the Funds and appoints the officers who conduct the daily business of the Funds.

Trustees and Officers

The Trustees and officers of the Trust are listed below with their addresses, present positions with the Trust and principal occupations over at least the last five years.

Name, Address and Year of Birth	Position(s) Held with the Trust	Term of Office and Length of Time Served	Number of Portfolios in the Trust Overseen by Trustee	Principal Occupation(s) During the Past Five Years	Other Directorships Held by Trustee During the Past Five Years
<i>Independent Trustees</i>					
Michael D. Akers, Ph.D. 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1955	Trustee	Indefinite Term; Since August 22, 2001	33	Professor and Chair, Department of Accounting, Marquette University (2004-present).	Independent Trustee, USA MUTUALS (an open-end investment company with one portfolio).
Gary A. Drska 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1956	Trustee	Indefinite Term; Since August 22, 2001	33	Pilot, Frontier/Midwest Airlines, Inc. (airline company) (1986-present).	Independent Trustee, USA MUTUALS (an open-end investment company with one portfolio).

Name, Address and Year of Birth	Position(s) Held with the Trust	Term of Office and Length of Time Served	Number of Portfolios in the Trust Overseen by Trustee	Principal Occupation(s) During the Past Five Years	Other Directorships Held by Trustee During the Past Five Years
Jonas B. Siegel 615 E. Michigan St. Milwaukee, WI 53202 Year of Birth: 1943	Trustee	Indefinite Term; Since October 23, 2009	33	Retired (2011-present); Managing Director, Chief Administrative Officer (“CAO”) and Chief Compliance Officer (“CCO”), Granite Capital International Group, L.P. (an investment management firm) (1994-2011). - * Mr. Neuberger is an “interested person” of the Trust as defined by the 1940 Act by virtue of the fact that he is a board member and an interested person of Quasar Distributors, LLC (the “Distributor”), the Funds’ principal underwriter.
- ** Effective July 1, 2017, Elizabeth B. Scalf will replace Anita M. Zagrodnik as Chief Compliance Officer, Vice President and Anti-Money Laundering Officer of the Trust.

Role of the Board

The Board of Trustees provides oversight of the management and operations of the Trust. Like all mutual funds, the day-to-day responsibility for the management and operation of the Trust is the responsibility of various service providers to the Trust and its individual series, such as the Adviser, Distributor and the Funds’ administrator, custodian, and transfer agent, each of which are discussed in greater detail in this SAI. The Board approves all agreements with the Adviser, Distributor and the Funds’ administrator, custodian and transfer agent. The Board has appointed various individuals of certain of these service providers as officers of the Trust, with responsibility to monitor and report to the Board on the Trust’s day-to-day operations. In conducting this oversight, the Board receives regular reports from these officers and service providers regarding the Trust’s operations. The Board has appointed a Chief Compliance Officer who reports directly to the Board and who administers the Trust’s compliance program and who regularly reports to the Board as to compliance matters, including by undertaking an annual compliance review. Some of these reports are provided as part of formal, in-person board meetings, which are held five times per year, and at such other times as the Board determines are necessary, and involve the Board’s review of recent Trust operations. From time to time one or more members of the Board may also meet with Trust officers in less formal settings, between formal board meetings, to discuss various topics. In all cases, however, the role of the Board and of any individual Trustee is one of oversight and not of management of the day-to-day affairs of the Trust, and this oversight role does not make the Board a guarantor of the Trust’s investments, operations or activities.

Board Leadership Structure

The Board has structured itself in a manner that it believes allows it to effectively perform its oversight function. The Board of Trustees is composed of three Independent Trustees – Dr. Michael D. Akers, Mr. Gary A. Drska and Mr. Jonas B. Siegel – and one Interested Trustee – Joseph C. Neuberger. Accordingly, 75% of the members of the Board are Independent Trustees, Trustees who are not affiliated with the Adviser or its affiliates, or any other investment adviser or service provider to the Trust or any underlying fund. The Board of Trustees has established three standing committees, an Audit Committee, a Nominating Committee and a Valuation Committee, which are discussed in greater detail under “Board

Committees” below. Each of the Audit Committee and the Nominating Committee are composed entirely of Independent Trustees. The Independent Trustees have engaged their own independent counsel to advise them on matters relating to their responsibilities in connection with the Trust.

The Trust’s Chairperson, Mr. Neuberger, is an “interested person” of the Trust, as defined by the 1940 Act, by virtue of the fact that he is a board member and an interested person of the Distributor, which acts as principal underwriter to the Funds and many of the Trust’s other underlying funds. Mr. Neuberger also serves as President and Chief Operating Officer of U.S. Bancorp Fund Services, LLC, the Funds’ administrator (the “Administrator” or “USBFS”). The Trust has not appointed a lead Independent Trustee.

In accordance with the fund governance standards prescribed under the 1940 Act, the Independent Trustees on the Nominating Committee select and nominate all candidates for Independent Trustee positions. Each Trustee was appointed to serve on the Board of Trustees because of his experience, qualifications, attributes and skills as set forth in the subsection “Trustee Qualifications” below.

The Board reviews its structure regularly in light of the characteristics and circumstances of the Trust, including the unaffiliated nature of each investment adviser and the fund(s) managed by such adviser, the number of funds that comprise the Trust, the variety of asset classes that those funds reflect, the net assets of the Trust, the committee structure of the Trust and the independent distribution arrangements of each of the Trust’s underlying funds.

The Board has determined that the function and composition of the Audit Committee and the Nominating Committee are appropriate to address any potential conflicts of interest that may arise from the Chairperson’s status as an Interested Trustee. In addition, the inclusion of all Independent Trustees as members of the Audit Committee and the Nominating Committee allows these Trustees to participate in the full range of the Board’s oversight duties, including oversight of risk management processes discussed below. Given the specific characteristics and circumstances of the Trust as described above, the Trust has determined that the Board of Trustees’ leadership structure is appropriate.

Board Oversight of Risk Management

As part of its oversight function, the Board receives and reviews various risk management reports and assessments and discusses these matters with appropriate management and other personnel, including personnel of the Trust’s service providers. Because risk management is a broad concept composed of many elements (such as, for example, investment risk, issuer and counterparty risk, compliance risk, operational risks and business continuity risks, etc.), the oversight of different types of risks is handled in different ways. For example, the Chief Compliance Officer regularly reports to the Board during Board Meetings and meets in executive session with the Independent Trustees and their legal counsel to discuss compliance and operational risks. In addition, the Independent Trustee designated as the Audit Committee’s “audit committee financial expert” meets with the Treasurer and the Trust’s independent registered public accounting firm to discuss, among other things, the internal control structure of the Trust’s financial reporting function. The full Board receives reports from the investment advisers to the underlying funds and the portfolio managers as to investment risks as well as other risks that may be discussed during Audit Committee meetings.

Trustee Qualifications

The Board believes that each of the Trustees has the qualifications, experience, attributes and skills appropriate to their continued service as Trustees of the Trust in light of the Trust’s business and structure. The Trustees have substantial business and professional backgrounds that indicate they have the ability to critically review, evaluate and assess information provided to them. Certain of these business and professional experiences are set forth in detail in the table above. In addition, the Trustees

have substantial board experience and, in their service to the Trust, have gained substantial insight as to the operation of the Trust. The Board annually conducts a “self-assessment” wherein the effectiveness of the Board and the individual Trustees is reviewed.

In addition to the information provided in the table above, below is certain additional information concerning each individual Trustee. The information provided below, and in the table above, is not all-inclusive. Many of the Trustees’ qualifications to serve on the Board involve intangible elements, such as intelligence, integrity, work ethic, the ability to work together, the ability to communicate effectively, the ability to exercise judgment, the ability to ask incisive questions, and commitment to shareholder interests. In conducting its annual self-assessment, the Board has determined that the Trustees have the appropriate attributes and experience to continue to serve effectively as Trustees of the Trust.

Michael D. Akers, Ph.D., CPA. Dr. Akers has served as an Independent Trustee of the Trust since 2001. Dr. Akers has also served as an independent trustee of USA Mutuals, an open-end investment company, since 2001. Dr. Akers has been a Professor and Chair of the Department of Accounting of Marquette University since 2004, and was Associate Professor of Accounting at Marquette University from 1996 to 2004. Dr. Akers is a certified public accountant, a certified fraud examiner, a certified internal auditor and a certified management accountant. Through his experience as a trustee of mutual funds and his employment experience, Dr. Akers is experienced with financial, accounting, regulatory and investment matters.

Gary A. Drska. Mr. Drska has served as an Independent Trustee of the Trust since 2001. Mr. Drska has also served as an independent trustee of USA Mutuals since 2001. Mr. Drska has served as a Pilot of Frontier/Midwest Airlines, Inc., an airline company, since 1986. Through his experience as a trustee of mutual funds, Mr. Drska is experienced with financial, accounting, regulatory and investment matters.

Joseph C. Neuberger. Mr. Neuberger has served as an Interested Trustee of the Trust since 2001. Mr. Neuberger has also served as a trustee of USA Mutuals since 2001 and Buffalo Funds, an open-end investment company, since 2003. Mr. Neuberger has served as President of the Administrator, a multi-line service provider to mutual funds, since 2017, and as Chief Operating Officer of the Administrator since 2016. Mr. Neuberger previously served as Executive Vice President of the Administrator from 1994 to 2017. Through his experience as a trustee of mutual funds and his employment experience, Mr. Neuberger is experienced with financial, accounting, regulatory and investment matters.

Jonas B. Siegel, CPA. Mr. Siegel has served as a Trustee of the Trust since 2009. Mr. Siegel previously served as an Independent Manager of the Ramius IDF fund complex from 2010-2015, which was composed of two closed-end investment companies. Mr. Siegel previously served as an independent trustee of Gottex Trust, an open-end investment company from 2010-2016. Mr. Siegel previously served as a trustee of the Gottex Multi-Asset Endowment fund complex from 2010 to 2015, and as a trustee of the Gottex Multi-Alternatives fund complex from 2010 to 2015, each of which is composed of three closed-end investment companies. He also served as the Managing Director, CAO and CCO of Granite Capital International Group, LP, an investment management firm, from 1994 to 2011, as Vice President, Secretary, Treasurer and CCO of Granum Series Trust, an open-end investment company, from 1997 to 2007, and as President, CAO and CCO of Granum Securities, LLC, a broker-dealer, from 1997 to 2007. Mr. Siegel is a certified public accountant. Through his experience as a trustee of mutual funds and his employment experience, Mr. Siegel is experienced with financial, accounting, regulatory and investment matters.

Trustee Ownership of Fund Shares

As of December 31, 2016, no Trustee or officer of the Trust beneficially owned shares of the Funds or any other series of the Trust.

Furthermore, as of December 31, 2016, neither the Trustees who are not “interested” persons of the Funds, nor members of their immediate families, owned securities beneficially, or of record, in the Adviser, the Distributor or any of its affiliates. Accordingly, neither the Trustees who are not “interested” persons of the Funds nor members of their immediate families, have a direct or indirect interest, the value of which exceeds \$120,000, in the Adviser, the Distributor or any of their affiliates. In addition, during the two most recently completed calendar years, neither the Independent Trustees nor members of their immediate families have conducted any transactions (or series of transactions) in which the amount involved exceeds \$120,000 and to which the Adviser, the Distributor or any affiliate thereof was a party.

Board Committees

Audit Committee. The Trust has an Audit Committee, which is composed of the Independent Trustees, Dr. Michael D. Akers, Mr. Gary A. Drska and Mr. Jonas B. Siegel. The Audit Committee reviews financial statements and other audit-related matters for the Funds. The Audit Committee also holds discussions with management and with the Funds’ independent auditor concerning the scope of the audit and the auditor’s independence. Dr. Akers is designated as the Audit Committee chairman and serves as the Audit Committee’s “audit committee financial expert,” as stated in the annual reports relating to the series of the Trust. During the past fiscal year, the Audit Committee met two times with respect to the Funds.

Nominating Committee. The Trust has a Nominating Committee, which is composed of the Independent Trustees, Dr. Michael D. Akers, Mr. Gary A. Drska and Mr. Jonas B. Siegel. The Nominating Committee is responsible for seeking and reviewing candidates for consideration as nominees for the position of trustee and meets only as necessary. As part of this process, the Nominating Committee considers criteria for selecting candidates sufficient to identify a diverse group of qualified individuals to serve as trustees.

The Nominating Committee will consider nominees recommended by shareholders for vacancies on the Board of Trustees. Recommendations for consideration by the Nominating Committee should be sent to the President of the Trust in writing together with the appropriate biographical information concerning each such proposed nominee, and such recommendation must comply with the notice provisions set forth in the Trust’s By-Laws. In general, to comply with such procedures, such nominations, together with all required information, must be delivered to and received by the Secretary of the Trust at the principal executive office of the Trust not later than 60 days prior to the shareholder meeting at which any such nominee would be voted on. Shareholder recommendations for nominations to the Board of Trustees will be accepted on an ongoing basis and such recommendations will be kept on file for consideration when there is a vacancy on the Board of Trustees. The Nominating Committee’s procedures with respect to reviewing shareholder nominations will be disclosed as required by applicable securities laws. During the past fiscal year, the Nominating Committee met once with respect to the Funds.

Valuation Committee. The Trust has a Valuation Committee. The Valuation Committee is responsible for the following: (1) monitoring the valuation of Fund securities and other investments; and (2) as required, when the Board of Trustees is not in session, for determining the fair value of illiquid securities and other holdings after consideration of all relevant factors, which determinations are reported to the Board. The Valuation Committee is currently composed of Mr. John Buckel, Ms. Jennifer Lima and Mr. Cullen Small, who each serve as an officer of the Trust. The Valuation Committee meets as necessary when a price for a portfolio security is not readily available. During the past fiscal year, the Valuation Committee did not meet with respect to the Funds.

Trustee Compensation

The Independent Trustees receive from the Trust a retainer fee of \$50,000 per year, \$3,750 per in-person Board meeting⁽¹⁾ attended and \$1,000 per telephonic Board meeting of the Trust, as well as reimbursement for expenses incurred in connection with attendance at Board meetings. Members of the

Audit Committee receive \$1,500 for each meeting of the Audit Committee attended. The chairman of the Audit Committee receives an annual retainer of \$2,500. Interested Trustees do not receive any compensation for their service as Trustees. For the fiscal year ended February 28, 2017, the Trustees received the following compensation:

Name of Person/Position	Aggregate Compensation from the Funds⁽²⁾	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from the Funds and the Trust⁽³⁾ Paid to Trustees
Dr. Michael D. Akers, Independent Trustee ⁽⁴⁾⁽⁵⁾	\$4,420	None	None	\$82,500
Gary A. Drska, Independent Trustee ⁽⁴⁾	\$4,280	None	None	\$80,000
Jonas B. Siegel Independent Trustee ⁽⁴⁾	\$4,280	None	None	\$77,500
Joseph C. Neuberger, Interested Trustee	None	None	None	None

⁽¹⁾ Prior to January 1, 2017, the Independent Trustees received \$2,500 per in-person Board meeting attended.

⁽²⁾ Trustees' fees and expenses are allocated among the Funds and any other series comprising the Trust.

⁽³⁾ There are currently thirty-one other portfolios comprising the Trust.

⁽⁴⁾ Audit Committee member.

⁽⁵⁾ Audit Committee chairman.

Control Persons and Principal Shareholders

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of a Fund. A control person is one who owns beneficially or through controlled companies more than 25% of the voting securities of a Fund or acknowledges the existence of control. Shareholders with a controlling interest could affect the outcome of proxy voting or the direction of the management of the Fund. As of May 31, 2017, no person was a control person of the Funds, and all Trustees and officers as a group owned beneficially (as defined in Section 13(d) of the Securities Exchange Act of 1934) less than 1% of shares of the Funds. As of May 31, 2017, the following shareholders are known by the Funds to own of record or to beneficially own 5% or more of the outstanding shares of the Funds:

Principal Shareholders – Mid Cap Growth Fund - Institutional Class

Name and Address	Parent Company	Jurisdiction	% Ownership	Type of Ownership
SEI Private Trust Company FBO Rockland Trust Company 1 Freedom Valley Drive Oaks, PA 19456-9989	SEI Investments Management Corp	PA	97.24%	Record

Investment Adviser

As stated in the Prospectus, investment advisory services are provided to the Funds by the Adviser, Bright Rock Capital Management, LLC, pursuant to an investment advisory agreement (the “Advisory Agreement”). The Adviser is a wholly-owned subsidiary of Rockland Trust Company, a Massachusetts trust company regulated by the Commissioner of Banks of the Commonwealth of Massachusetts. Rockland Trust Company is a wholly-owned subsidiary of Independent Bank Corp., a publicly-traded company (NASDAQ: INDB).

After an initial two-year period, the Advisory Agreement continues in effect from year to year, only if such continuance is specifically approved at least annually by: (i) the Board of Trustees or the vote of a majority of the outstanding voting securities of a Fund (with respect to such Fund); and (ii) the vote of a majority of the Trustees of the Trust who are not parties to the Advisory Agreement nor interested persons thereof, cast in person at a meeting called for the purpose of voting on such approval. The Advisory Agreement is terminable without penalty by the Trust, on behalf of the Funds, upon 60 days’ written notice to the Adviser, when authorized by either: (i) a majority vote of the outstanding voting securities of a Fund; or (ii) by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days’ written notice to the Trust. The Advisory Agreement will automatically terminate in the event of its “assignment” (as defined in the 1940 Act). The Advisory Agreement provides that the Adviser under such agreement shall not be liable for any error of judgment or mistake of law or for any loss arising out

of any investment or for any act or omission in the execution of portfolio transactions for the Funds, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

In consideration of the services provided by the Adviser pursuant to the Advisory Agreement, the Adviser is entitled to receive from the Mid Cap Growth Fund and the Quality Large Cap Fund, a management fee computed daily and paid monthly, based on a rate equal to 0.75% and 0.65%, respectively, of each Fund's average annual net assets, as specified in the Prospectus. However, the Adviser may voluntarily agree to waive a portion of the management fees payable to it on a month-to-month basis, including additional fees above and beyond any contractual agreement the Adviser may have to waive management fees and/or reimburse Fund expenses.

The table below sets forth, for the fiscal years ended February 28, 2017, February 29, 2016 and February 28, 2015, the advisory fees accrued by the Funds under the Advisory Agreement, the amount of the advisory fees waived or recouped by the Adviser, and the total advisory fees paid by the Funds to the Adviser under the Advisory Agreement:

Mid Cap Growth Fund

Fiscal Year Ended	Advisory Fee	Recoupment / (Waiver)	Advisory Fee after Recoupment / (Waiver)
February 28, 2017	\$397,519	\$24,250	\$421,769
February 29, 2016	\$345,638	(\$7,295)	\$338,343
February 28, 2015	\$326,731	(\$11,095)	\$315,636

Quality Large Cap Fund

Fiscal Year Ended	Advisory Fee	(Waiver)	Advisory Fee after Waiver
February 28, 2017	\$1,331,638	\$0	\$1,331,638
February 29, 2016	\$1,179,139	\$0	\$1,179,139
February 28, 2015	\$1,084,413	\$0	\$1,084,413

Fund Expenses. Each Fund is responsible for its own operating expenses. The Adviser has agreed to waive management fees payable to it by the Funds and/or to reimburse each Fund's operating expenses to the extent necessary to limit the Funds' aggregate annual operating expenses (exclusive of front-end or contingent deferred loads, Rule 12b-1 fees, shareholder servicing plan fees, interest, acquired fund fees and expenses, leverage expenses (*i.e.*, any expenses incurred in connection with borrowings made by the Funds), tax expenses, dividends and interest expenses on short positions, expenses incurred in connection with any merger or reorganization, brokerage commissions, and extraordinary expenses such as litigation) to the limit set forth in the Fund's Prospectus. The Adviser may request recoupment of previously waived fees and paid expenses from the Funds for three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursements will not cause a Fund to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment. Any such recoupment is also contingent upon the Board of Trustees' subsequent review and ratification of the recouped amounts. Such recoupment may not be paid prior to a Fund's payment of current ordinary operating expenses.

Portfolio Managers

As disclosed in the Prospectus, Douglas S. Butler and David B. Smith are the portfolio managers for the Mid Cap Growth Fund and the Quality Large Cap Fund (collectively, the "Portfolio Managers").

Other Accounts Managed by the Portfolio Managers

The following provides information regarding other accounts managed by the Portfolio Managers as of February 28, 2017:

Category of Account	Total Number of Accounts Managed	Total Assets in Accounts Managed	Number of Accounts for which Advisory Fee is Based on Performance	Assets in Accounts for which Advisory Fee is Based on Performance
<u>Douglas S. Butler</u>				
Other Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	2,863	\$865 million	0	\$0
<u>David B. Smith</u>				
Other Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Vehicles	0	\$0	0	\$0
Other Accounts	288	\$384 million	0	\$0

Material Conflicts of Interest

The Portfolio Managers' management of "other accounts" may give rise to potential conflicts of interest in connection with the management of the Funds' investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as a Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the Portfolio Managers could favor one account over another. Another potential conflict could include the Portfolio Managers' knowledge about the size, timing and possible market impact of Fund trades, whereby the Portfolio Managers could use this information to the advantage of other accounts and to the disadvantage of the Funds. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Portfolio Manager Compensation

The Adviser compensates the Portfolio Managers for their management of the Funds. Each Portfolio Manager receives a cash salary and a cash incentive based on product investment performance and financial success.

Ownership of Securities in the Fund by the Portfolio Managers

As of February 28, 2017, the Portfolio Managers beneficially owned shares of the Funds as follows:

Dollar Range of Equity Securities in the Funds		
Name of Portfolio Manager	Mid Cap Growth Fund	Quality Large Cap Fund
Douglas S. Butler	\$10,001-\$50,000	\$100,001-\$500,000
David B. Smith	\$10,001-\$50,000	\$100,001-\$500,000

Service Providers

Fund Administrator, Transfer Agent and Fund Accountant

Pursuant to an administration agreement between the Trust and the Administrator, U.S. Bancorp Fund Services, LLC, 615 East Michigan Street, Milwaukee, Wisconsin, 53202, the Administrator acts as the Funds' administrator. The Administrator provides certain administrative services to the Funds, including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Funds' independent contractors and agents; preparing for signature by an officer of the Trust all of the documents required to be filed for compliance by the Trust and the Funds with applicable laws and regulations excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Funds; and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, the Administrator does not have any responsibility or authority for the management of the Funds, the determination of investment policy, or for any matter pertaining to the distribution of Fund shares. USBFS also acts as fund accountant ("Fund Accountant"), transfer agent ("Transfer Agent") and dividend disbursing agent under separate agreements with the Trust.

For the fiscal years indicated below, the Funds paid the following fees to the Administrator:

	Administration Fees		
	Paid During Fiscal Year Ended		
	February 28, <u>2017</u>	February 29, <u>2016</u>	February 28, <u>2015</u>
Mid Cap Growth Fund	\$64,712	\$59,643	\$56,853
Quality Large Cap Fund	\$199,006	\$180,044	\$164,424

Custodian

U.S. Bank, N.A., an affiliate of USBFS (the "Custodian"), serves as the custodian of the Funds' assets pursuant to a custody agreement between the Custodian and the Trust, on behalf of the Funds, whereby the Custodian charges fees on a transactional basis plus out-of-pocket expenses. The Custodian's address is 1555 North River Center Drive, Milwaukee, Wisconsin, 53212. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Funds. The Custodian and its affiliates may participate in revenue sharing arrangements with service providers of mutual funds in which the Funds may invest.

Legal Counsel

Godfrey & Kahn, S.C., 833 East Michigan Street, Suite 1800, Milwaukee, Wisconsin 53202, serves as counsel to the Funds.

Independent Registered Public Accounting Firm

Deloitte & Touche LLP, 555 East Wells Street, Milwaukee, Wisconsin 53202, serves as the independent registered public accounting firm of the Funds.

Distribution of Fund Shares

The Trust has entered into a distribution agreement (the "Distribution Agreement") with Quasar Distributors, LLC, 777 East Wisconsin Avenue, 6th Floor, Milwaukee, Wisconsin 53202, pursuant to which the Distributor acts as the Funds' principal underwriter, provides certain administration services and promotes and arranges for the sale of the Funds' shares. The offering of the Funds' shares is continuous, and the Distributor distributes the Funds' shares on a best efforts basis. The Distributor, Administrator and Custodian are affiliated companies. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

The Distribution Agreement has an initial term of up to two years and will continue in effect only if its continuance is specifically approved at least annually by the Board of Trustees or by vote of a majority of a Fund's outstanding voting securities and, in either case, by a majority of the trustees who are not parties to the Distribution Agreement or "interested persons" (as defined in the 1940 Act) of any such party. The Distribution Agreement is terminable without penalty by the Trust, on behalf of the Funds, on 60 days' written notice when authorized either by a majority vote of the outstanding voting securities of the Fund or by vote of a majority of the Trustees who are not "interested persons" (as defined in the 1940 Act). The Distribution Agreement is terminable without penalty by the Distributor upon 60 days' written notice to the Trust. The Distribution Agreement will automatically terminate in the event of its "assignment" (as defined in the 1940 Act).

During the last three fiscal years, the Distributor did not receive any net underwriting commissions on the sale of the Funds' shares.

Distribution (Rule 12b-1) Plan

The Funds have adopted a distribution plan (the "Distribution Plan") pursuant to Rule 12b-1 under the 1940 Act on behalf of the Funds.

Rule 12b-1 Distribution Fee

Under the Distribution Plan, each Fund is authorized to pay the Distributor, or such other entities as approved by the Board of Trustees, a Rule 12b-1 fee for the sale and distribution of the Funds' Investor Class shares (the "Distribution Fee"). The maximum amount of the Distribution Fee fee authorized is an annual rate of 0.25% of the Funds' average daily NAV attributable to Investor Class shares. The Distribution Plan provides that the Distributor may use all or any portion of such Distribution Fee to finance any activity that is principally intended to result in the sale of Investor Class shares of the Funds, subject to the terms of the Distribution Plan. Institutional Class shares of the Funds are not subject to a Distribution Fee.

The Distribution Fee is payable to the Distributor regardless of the distribution-related expenses actually incurred. Because the Distribution Fee is not directly tied to expenses, the amount of Distribution Fees paid by the Funds during any year may be more or less than actual expenses incurred pursuant to the Distribution Plan. For this reason, this type of distribution fee arrangement is characterized by the staff of the SEC as a "compensation" plan.

The Distributor may use the Distribution Fee to pay for services covered by the Distribution Plan including, but not limited to, advertising, compensating underwriters, dealers and selling personnel engaged in the distribution of Fund shares, the printing and mailing of prospectuses, statements of additional information and reports to other than current Fund shareholders, the printing and mailing of sales literature pertaining to the Funds, and obtaining whatever information, analyses and reports with respect to marketing and promotional activities that the Funds may, from time to time, deem advisable.

The table below shows the amount of Rule 12b-1 fees incurred by the Investor Class of the Mid Cap Growth Fund and the Quality Large Cap Fund and the allocation of such fees by the Investor Class for the fiscal year ended February 28, 2017.

**Actual Rule 12b-1 Expenditures Incurred by the Funds
During the Fiscal Year Ended February 28, 2017**

	<u>Mid Cap Growth Fund</u> <u>Total Dollars Allocated</u>	<u>Quality Large Cap Fund</u> <u>Total Dollars Allocated</u>
Advertising/Marketing	\$0	\$0
Printing/Postage	\$0	\$0
Payment to distributor	\$0	\$0
Payment to dealers	\$239	\$4,408
Compensation to sales personnel	\$0	\$0
Other	\$0	\$0
Total	\$239	\$4,408

To the extent these asset-based fees and other payments made under the Distribution Plan to financial intermediaries for the distribution services they provide to the Funds' shareholders exceed the Distribution Fees available, these payments are made by the Adviser from its own resources, which may include its profits from the advisory fee it receives from the Funds. In addition, the Funds may participate in various "fund supermarkets" in which a mutual fund supermarket sponsor (usually a broker-dealer) offers many mutual funds to the sponsor's customers without charging the customers a sales charge. In connection with its participation in such platforms, the Adviser may use all or a portion of the Distribution Fee to pay one or more supermarket sponsors a negotiated fee for distributing a Fund's shares. In addition, in its discretion, the Adviser may pay additional fees to such intermediaries from its own assets.

The Distribution Plan provides that it will continue from year-to-year upon approval by the majority vote of the Board of Trustees, including a majority of the trustees who are not "interested persons" of the Funds, as defined in the 1940 Act, and who have no direct or indirect financial interest in the operations of the Distribution Plan or in any agreement related to such plan (the "Qualified Trustees"), as required by the 1940 Act, cast in person at a meeting called for that purpose. It is also required that the trustees who are not "interested persons" of the Funds select and nominate all other trustees who are not "interested persons" of the Funds. The Distribution Plan and any related agreements may not be amended to materially increase the amounts to be spent for distribution expenses without approval of shareholders holding a majority of the Fund shares outstanding. All material amendments to the Distribution Plan or any related agreements must be approved by a vote of a majority of the Board of Trustees and the Qualified Trustees, cast in person at a meeting called for the purpose of voting on any such amendment.

The Distribution Plan requires that the Adviser provide to the Board of Trustees, at least quarterly, a written report on the amounts and purpose of any payment made under the Distribution Plan. The Adviser is also required to furnish the Board of Trustees with such other information as may reasonably be requested in order to enable the Board of Trustees to make an informed determination of whether the Distribution Plan should be continued. With the exception of the Adviser, no "interested person" of the Funds, as defined in the 1940 Act, and no Qualified Trustee of the Funds has or had a direct or indirect financial interest in the Distribution Plan or any related agreement.

As noted above, the Distribution Plan provides for the ability to use Fund assets to pay financial intermediaries (including those that sponsor mutual fund supermarkets), plan administrators and other service providers to finance any activity that is principally intended to result in the sale of Fund shares (distribution services). The payments made by the Funds to these financial intermediaries are based primarily on the dollar amount of assets invested in the Funds through the financial intermediaries. These financial intermediaries may pay a portion of the payments that they receive from the Funds to their investment professionals. In addition to the ongoing asset-based fees paid to these financial intermediaries under the Distribution Plan, the Funds may, from time to time, make payments under the

Distribution Plan that help defray the expenses incurred by these intermediaries for conducting training and educational meetings about various aspects of the Funds for their employees. In addition, the Funds may make payments under the Distribution Plan for exhibition space and otherwise help defray the expenses these financial intermediaries incur in hosting client seminars where the Funds are discussed.

Portfolio Transactions and Brokerage

Pursuant to the Advisory Agreement, the Adviser determines which securities are to be purchased and sold by the Funds and which broker-dealers are eligible to execute the Funds' portfolio transactions. Purchases and sales of securities in the over-the-counter market will generally be executed directly with a "market-maker" unless, in the opinion of the Adviser, a better price and execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Funds will be effected through broker-dealers (including banks) that specialize in the types of securities that the Funds will be holding, unless the Adviser believes that better executions are available elsewhere. Dealers usually act as principal for their own accounts. Purchases from dealers will include a spread between the bid and the asked price. If the execution and price offered by more than one dealer are comparable, the order may be allocated to a dealer that has provided research or other services as discussed below.

In placing portfolio transactions, the Adviser will use reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities and other factors. In those instances where it is reasonably determined that more than one broker-dealer can offer the services needed to obtain the most favorable price and execution available, consideration may be given to those broker-dealers that furnish or supply research and statistical information to the Adviser that it may lawfully and appropriately use in its investment advisory capacities, as well as provide other brokerage services in addition to execution services. The Adviser considers such information, which is in addition to and not in lieu of the services required to be performed by it under its Advisory Agreement with the Funds, to be useful in varying degrees, but of indeterminable value. Portfolio transactions may be placed with broker-dealers who sell shares of the Funds subject to rules adopted by FINRA and the SEC. Portfolio transactions may also be placed with broker-dealers in which the Adviser has invested on behalf of the Funds and/or client accounts.

While it is the Funds' general policy to first seek to obtain the most favorable price and execution available in selecting a broker-dealer to execute portfolio transactions for the Funds, weight is also given to the ability of a broker-dealer to furnish brokerage and research services to the Funds or to the Adviser, even if the specific services are not directly useful to the Funds and may be useful to the Adviser in advising other clients. In negotiating commissions with a broker or evaluating the spread to be paid to a dealer, the Funds may therefore pay a higher commission or spread than would be the case if no weight were given to the furnishing of these supplemental services, provided that the amount of such commission or spread has been determined in good faith by the Adviser to be reasonable in relation to the value of the brokerage and/or research services provided by such broker-dealer. The standard of reasonableness is to be measured in light of the Adviser's overall responsibilities to the Funds.

Investment decisions for the Funds are made independently from those of other client accounts. Nevertheless, it is possible that at times identical securities will be acceptable for both the Funds and one or more of such client accounts. In such event, the position of the Funds and such client account(s) in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of these client accounts seek to acquire the same

security as the Funds at the same time, the Funds may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Funds may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such client accounts simultaneously purchases or sells the same security that the Funds are purchasing or selling, each day's transactions in such security will be allocated between the Funds and all such client accounts in a manner deemed equitable by the Adviser, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Funds are concerned. In other cases, however, it is believed that the ability of the Funds to participate in volume transactions may produce better executions for the Funds. Notwithstanding the above, the Adviser may execute buy and sell orders for accounts and take action in performance of its duties with respect to any of its accounts that may differ from actions taken with respect to another account, so long as the Adviser shall, to the extent practical, allocate investment opportunities to accounts, including the Funds, over a period of time on a fair and equitable basis and in accordance with applicable law.

The Funds are required to identify any securities of their "regular brokers or dealers" that a Fund has acquired during its most recent fiscal year. During the fiscal year ended February 28, 2017, there were no such securities acquired by the Funds.

The Funds are also required to identify any brokerage transactions during their most recent fiscal year that were directed to a broker because of research services provided, along with the amount of any such transactions and any related commissions paid by the Funds. The following table shows the amount of any such transactions and related commissions paid for research services for the fiscal year ended February 28, 2017:

Fund	Commissions	Transactions
Mid Cap Growth Fund	\$37,095	\$32,807,029
Quality Large Cap Fund	\$194,316	\$251,622,626

The following table shows the amounts paid by each Fund in brokerage commissions for the fiscal years ended February 28, 2017, February 29, 2016 and February 28, 2015:

Brokerage Commissions Paid During Fiscal Year Ended			
	February 28 2017	February 29, 2016	February 28, 2015
Mid Cap Growth Fund	\$37,095	\$37,445	\$48,280
Quality Large Cap Fund	\$194,816	\$197,360*	\$90,488

* The increase in the Quality Large Cap Fund's brokerage commissions from 2015 to 2016 is attributable to increased trading activities designed to minimize tax distributions to the taxable clients which make up roughly 75% of the Fund.

Portfolio Turnover

Although the Funds generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (1) the lesser of purchases or sales of portfolio securities for the fiscal year by (2) the monthly average of the value of portfolio securities owned during the fiscal year. A 100% turnover rate would occur if all the securities in a Fund's portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of

portfolio turnover (100% or more) generally leads to above-average transaction and brokerage commission costs and may generate capital gains, including short-term capital gains taxable to shareholders at ordinary income rates (for non-corporate shareholders, currently taxed at a maximum federal tax income rate of 39.6%). To the extent that a Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the Fund.

For the fiscal years ended February 28, 2017 and February 29, 2016, the portfolio turnover rates for the each Fund were as follows:

Portfolio Turnover During Fiscal Year Ended		
	February 28, <u>2017</u>	February 29, <u>2016</u>
Mid Cap Growth Fund	30.20%	44.14%
Quality Large Cap Fund	60.30%	58.30%

Code of Ethics

The Funds, the Adviser and the Distributor have each adopted a Code of Ethics under Rule 17j-1 of the 1940 Act. These Codes of Ethics permit, subject to certain conditions, personnel of the Adviser and Distributor to invest in securities that may be purchased or held by the Funds.

Proxy Voting Procedures

The Board of Trustees has adopted proxy voting policies and procedures (“Proxy Policies”) wherein the Trust has delegated to the Adviser the responsibility for voting proxies relating to portfolio securities held by the Funds as part of its investment advisory services, subject to the supervision and oversight of the Board. Notwithstanding this delegation of responsibilities, however, the Funds retain the right to vote proxies relating to their portfolio securities. The fundamental purpose of the Proxy Policies is to ensure that each vote will be in a manner that reflects the best interest of the Funds and their shareholders, taking into account the value of the Funds’ investments.

Policies of the Adviser

Upon receiving each proxy, the Adviser will review the issues presented and make a decision to vote for, against or abstain on each of the issues presented in accordance with the proxy voting guidelines that it has adopted. Generally, proxies will be voted along management’s guidelines as indicated on the proxy. Any non-routine matters will be referred to the Adviser’s Investment Policy Committee.

The Adviser’s duty is to vote in the best interests of the Funds’ shareholders, meaning that the Adviser’s proxy voting decisions will be consistent with the Adviser’s fiduciary duty to TPM and its shareholders and the Funds’ investment objectives and policies.

In the event of a conflict between the interests of the Adviser and a Fund, the Adviser’s policies provide that the conflict may be disclosed to the Board of Trustees or its delegate, who shall provide direction on how to vote the proxy. The Board of Trustees has delegated this authority to the Independent Trustees, and the proxy voting direction in such a case shall be determined by a majority of the Independent Trustees.

The actual voting records relating to portfolio securities during the most recent 12-month period ended June 30 are available without charge, upon request, by calling toll-free, 1-866-273-7223 or by accessing the SEC’s website at www.sec.gov.

Anti-Money Laundering Compliance Program

The Trust has established an Anti-Money Laundering Compliance Program (the “Program”) as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the “USA PATRIOT Act”). To ensure compliance with this law, the Trust’s Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program. Ms. Anita M. Zagrodnik has been designated as the Trust’s Anti-Money Laundering Compliance Officer. Effective July 1, 2017, Ms. Elizabeth B. Scalf will replace Ms. Zagrodnik as the Trust’s Anti-Money Laundering Compliance Officer.

Procedures to implement the Program include, but are not limited to: determining that the Distributor and the Transfer Agent have established proper anti-money laundering procedures; reporting suspicious and/or fraudulent activity; and a complete and thorough review of all new account applications. The Funds will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

As a result of the Program, the Funds may be required to “freeze” the account of a shareholder if the shareholder appears to be involved in suspicious activity or if certain account information matches information on government lists of known terrorists or other suspicious persons, or the Funds may be required to transfer the account or proceeds of the account to a governmental agency.

Portfolio Holdings Information

The Trust, on behalf of the Funds, has adopted portfolio holdings disclosure policies (the “Disclosure Policies”) that govern the timing and circumstances of disclosure of portfolio holdings of the Funds. Information about the Funds’ portfolio holdings will not be distributed to any third party except in accordance with these Disclosure Policies. The Board of Trustees considered the circumstances under which the Funds’ portfolio holdings may be disclosed under the Disclosure Policies, considering actual and potential material conflicts that could arise in such circumstances between the interests of the Funds’ shareholders and the interests of the Adviser, Distributor or any other affiliated person of the Funds. After due consideration, the Board determined that the Funds have a legitimate business purpose for disclosing portfolio holdings to persons described in these Disclosure Policies.

Information about the Funds’ portfolio holdings will not be distributed to any third party except as described below:

- the disclosure is required to respond to a regulatory request, court order or other legal proceedings;
- the disclosure is to a mutual fund rating or evaluation services organization (such as Factset, Morningstar and Lipper), or statistical agency or person performing similar functions, or due diligence department of a broker-dealer or wirehouse, who has, if necessary, signed a confidentiality agreement, or is bound by applicable duties of confidentiality imposed by law, with the Funds;
- the disclosure is made to the Funds’ service providers who generally need access to such information in the performance of their contractual duties and responsibilities, and who are subject to duties of confidentiality imposed by law and/or contract, such as the Adviser, the Board of Trustees, the Funds’ independent registered public accountants, regulatory authorities, counsel to the Funds or the Board of Trustees, proxy voting service providers, financial printers involved in the reporting process, the fund administrator, fund accountant, transfer agent, or custodian of the Funds;
- the disclosure is made by the Adviser’s trading desk to broker-dealers in connection with the purchase or sale of securities or requests for price quotations or bids on one or more securities; in

addition, the Adviser's trading desk may periodically distribute a holdings list (consisting of names only) to broker-dealers so that such brokers can provide the Adviser with order flow information;

- the disclosure is made to institutional consultants evaluating the Funds on behalf of potential investors;
- the disclosure is (a) in connection with a quarterly, semi-annual or annual report that is available to the public or (b) relates to information that is otherwise available to the public (*e.g.*, portfolio information that is available on the Funds' website at least one day prior to the disclosure); or
- the disclosure is made pursuant to prior written approval of the CCO, or other person so authorized, is for a legitimate business purpose and is in the best interests of the Funds' shareholders.

For purposes of the Disclosure Policies, portfolio holdings information does not include descriptive information if that information does not present material risks of dilution, arbitrage, market timing, insider trading or other inappropriate trading for the Funds. Information excluded from the definition of portfolio holdings information generally includes, without limitation: (i) descriptions of allocations among asset classes, regions, countries or industries/sectors; (ii) aggregated data such as average or median ratios, or market capitalization, performance attributions by industry, sector or country; or (iii) aggregated risk statistics. It is the policy of the Trust to prohibit any person or entity from receiving any direct or indirect compensation or consideration of any kind in connection with the disclosure of information about the Funds' portfolio holdings.

The CCO must document any decisions regarding non-public disclosure of portfolio holdings and the rationale therefor. In connection with the oversight responsibilities by the Board of Trustees, any documentation regarding decisions involving the non-public disclosure of portfolio holdings of the Funds to third parties must be provided to the full Board of Trustees or its authorized committee. In addition, on a quarterly basis, the Board will review any disclosures of portfolio holdings outside of the permitted disclosures described above to address any conflicts between the interests of Fund shareholders and those of the Adviser or any other Fund affiliate.

Currently, between the 5th and 10th business day following each month end, the Funds provide their portfolio holdings to rating and ranking organizations, including Lipper, a Thomson Reuters Company ("Lipper"), Morningstar, Inc. ("Morningstar"), Standard & Poor's Financial Services, LLC, Bloomberg L.P., Thomson Reuters Corporation, Vickers Stock Research Corporation and Capital-Bridge, Inc. Lipper and Morningstar then post a list of the Funds' top portfolio holdings to their respective websites. The Funds' top ten holdings are also available in the Funds' quarterly Fact Sheets posted to the Funds' website, www.brightrockfunds.com. Portfolio holdings disclosure may be approved under the Disclosure Policies by the Trust's CCO, Treasurer or President. Disclosure of the Funds' complete holdings is required to be made quarterly within 60 days of the end of each fiscal quarter, in the annual and semi-annual reports to Fund shareholders, and in the quarterly holdings report on Form N-Q. These reports will be made available, free of charge, on the EDGAR database on the SEC's website at www.sec.gov.

Any suspected breach of this policy must be reported immediately to the CCO, or to the chief compliance officer of the Adviser who must report it to the CCO. The Board of Trustees reserves the right to amend the Disclosure Policies at any time without prior notice in its sole discretion.

Determination of Net Asset Value

The NAV of a Fund's shares will fluctuate and is determined as of the close of trading on the New York Stock Exchange (the "NYSE") (generally 4:00 p.m., Eastern time) each business day. The NYSE annually announces the days on which it will not be open for trading. The most recent announcement indicates that it will not be open on the following days: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and

Christmas Day. However, the NYSE may close on days not included in that announcement. If the NYSE closes early, the Funds will calculate their NAVs at the closing time on that day. If an emergency exists as permitted by the SEC, the NAVs may be calculated at a different time.

The NAV per share is computed by dividing the value of the securities held by a Fund plus any cash or other assets (including interest and dividends accrued but not yet received) minus all liabilities (including accrued expenses) by the total number of shares in the Funds outstanding at such time.

$$\frac{\text{Net Assets}}{\text{Shares Outstanding}} = \text{Net Asset Value Per Share}$$

Generally, the Funds' investments are valued at market value or, in the absence of a market value, at fair value as determined in good faith by the Adviser and the Valuation Committee pursuant to procedures approved by or under the direction of the Board of Trustees.

Each security owned by the Funds, including long and short positions of common stock and real estate investment trusts, that is listed on a securities exchange is valued at its last sale price on that exchange on the date as of which assets are valued. When the security is listed on more than one exchange, the Funds will use the price of the exchange that the Funds generally consider to be the principal exchange on which the stock is traded.

All equity securities that are not traded on a listed exchange are valued at the last sales price at the close of the over-the-counter market. If a non-exchange listed security does not trade on a particular day, then the mean between the last quoted bid and asked price will be used as long as it continues to reflect the value of the security.

Fund securities listed on the NASDAQ Stock Market, Inc. ("NASDAQ") will be valued at the NASDAQ Official Closing Price ("NOCP"), which may not necessarily represent the last sale price. If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation. If there has been no sale on such exchange or on NASDAQ on such day, the security is valued at the mean between the bid and asked prices on such day.

Debt securities, including short-term instruments having a maturity of 60 days or less, are valued at the mean in accordance with prices provided by an approved pricing service ("Pricing Service"). Pricing services may use various valuation methodologies such as the mean between the bid and the asked prices, matrix pricing method or other analytical pricing models as well as market transactions and dealer quotations. If a price is not available from a pricing service, the most recent quotation obtained from one or more broker-dealers known to follow the issue will be obtained. Quotations will be valued at the mean between the bid and the offer. Fixed income securities purchased on a delayed-delivery basis are typically marked to market daily until settlement at the forward settlement date. Any discount or premium is accreted or amortized on a straight-line basis until maturity.

Exchange traded options are valued at the composite price, using the National Best Bid and Offer quotes ("NBBO"). NBBO consists of the highest bid price and lowest ask price across any of the exchanges on which an option is quoted, thus providing a view across the entire U.S. options marketplace. Specifically, composite pricing looks at the last trades on the exchanges where the options are traded. If there are no trades for the option on a given business day composite option pricing calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is traded.

Futures contracts and options thereon traded are valued at the settlement price at the close of trading on such exchange or board of trade.

All other assets of the Funds are valued in such manner as the Board of Trustees in good faith deems appropriate to reflect their fair value.

Additional Purchase and Redemption Information

The information provided below supplements the information contained in the Prospectus regarding the purchase and redemption of Fund shares.

How to Purchase Shares

You may purchase shares of the Funds directly from the Funds, or from securities brokers, dealers or other financial intermediaries (collectively, “Financial Intermediaries”). Investors should contact their Financial Intermediary directly for appropriate instructions, as well as information pertaining to accounts and any service or transaction fees that may be charged. The Funds may enter into arrangements with certain Financial Intermediaries whereby such Financial Intermediaries (and their authorized designees) are authorized to accept your order on behalf of the Funds (each an “Authorized Intermediary”). If you transmit your purchase request to an Authorized Intermediary before the close of regular trading (generally 4:00 p.m., Eastern time) on a day that the NYSE is open for business, shares will be purchased at the next calculated NAV, after the Financial Intermediary receives the request. Investors should check with their Financial Intermediary to determine if it is an Authorized Intermediary.

Shares are purchased at the next calculated NAV, after the Transfer Agent or Authorized Intermediary receives your purchase request in good order. In most cases, in order to receive that day’s NAV, the Transfer Agent must receive your order in good order before the close of regular trading on the NYSE (generally 4:00 p.m., Eastern time).

The Trust reserves the right in its sole discretion: (i) to suspend the continued offering of the Funds’ shares; (ii) to reject purchase orders in whole or in part when in the judgment of the Adviser or the Distributor such rejection is in the best interest of the Funds; and (iii) to reduce or waive the minimum for initial and subsequent investments for certain fiduciary accounts or under circumstances where certain economies can be achieved in sales of the Funds’ shares.

How to Redeem Shares and Delivery of Redemption Proceeds

You may redeem your Fund shares any day the NYSE is open for regular trading, either directly with the Funds or through your Financial Intermediary.

Payments to shareholders for shares of the Funds redeemed directly from the Funds will be made as promptly as possible, but no later than seven days after receipt by the Transfer Agent of the written request in proper form, with the appropriate documentation as stated in the Prospectus, except that the Funds may suspend the right of redemption or postpone the date of payment during any period when (a) trading on the NYSE is restricted as determined by the SEC or the NYSE is closed for other than weekends and holidays; (b) an emergency exists as determined by the SEC making disposal of portfolio securities or valuation of net assets of the Funds not reasonably practicable; or (c) for such other period as the SEC may permit for the protection of the Fund’s shareholders. Under unusual circumstances, the Funds may suspend redemptions, or postpone payment for more than seven days, but only as authorized by SEC rules.

The value of shares on redemption or repurchase may be more or less than the investor’s cost, depending upon the market value of a Fund’s portfolio securities at the time of redemption or repurchase.

Telephone Redemptions

Shareholders with telephone transaction privileges established on their account may redeem Fund shares by telephone. Upon receipt of any instructions or inquiries by telephone from the shareholder, the Funds or their authorized agents may carry out the instructions and/or respond to the inquiry consistent with the shareholder's previously established account service options. For joint accounts, instructions or inquiries from either party will be carried out without prior notice to the other account owners. In acting upon telephone instructions, the Funds and their agents use procedures that are reasonably designed to ensure that such instructions are genuine. These include recording all telephone calls, requiring pertinent information about the account and sending written confirmation of each transaction to the registered owner.

The Transfer Agent will employ reasonable procedures to confirm that instructions communicated by telephone are genuine. If the Transfer Agent fails to employ reasonable procedures, the Funds and the Transfer Agent may be liable for any losses due to unauthorized or fraudulent instructions. If these procedures are followed, however, to the extent permitted by applicable law, neither the Funds nor their agents will be liable for any loss, liability, cost or expense arising out of any redemption request, including any fraudulent or unauthorized request. For additional information, contact the Transfer Agent.

Redemption in Kind

The Funds do not intend to redeem shares in any form except cash. The Trust, however, has filed a notice of election under Rule 18f-1 of the 1940 Act that allows the Funds to redeem in kind redemption requests of a certain amount. Specifically, if the amount you are redeeming during any 90-day period is in excess of the lesser of \$250,000 or 1% of the net assets of a Fund, valued at the beginning of such period, the Fund has the right to redeem your shares by giving you the amount that exceeds \$250,000 or 1% of the net assets of the Fund in securities instead of cash. If a Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash, and will bear any market risks associated with such securities until they are converted into cash. For federal income tax purposes, redemptions made in kind are taxed in the same manner as redemptions made in cash. In addition, sales of in-kind securities may generate taxable gains.

Federal Income Tax Matters

Changes in income tax laws, potentially with retroactive effect, could impact the Funds' investments or the tax consequences to you of investing in the Funds.

Each series of the Trust is treated as a separate entity for federal income tax purposes. The Funds, each a series of the Trust, intend to qualify and elect to be treated as regulated investment companies ("RICs") under Subchapter M of the Code, provided they comply with all applicable requirements regarding the source of their income, diversification of their assets and timing and amount of their distributions. Each Fund's policy is to distribute to its shareholders all of its investment company taxable income and net capital gain for each fiscal year in a manner that complies with the distribution requirements of the Code, so that the Fund will not be subject to any federal income or excise taxes on amounts distributed. However, the Funds can give no assurances that their anticipated distributions will be sufficient to eliminate all taxes at the Fund level. If a Fund does not qualify as a RIC and is unable to obtain relief from such failure, it would be taxed as a corporation and, in such case, it would be more beneficial for a shareholder to directly own the Fund's underlying investments rather than indirectly owning them through the Fund.

To qualify as a RIC, a Fund must derive at least 90% of its gross income from "good income," which includes: (1) dividends, interest, certain payments with respect to securities loans and gains from the sale or other disposition of stock, securities or foreign currencies; and (2) other income (including but not

limited to gains from options, futures or forward contracts) derived with respect to a Fund's business of investing in such stock, securities or foreign currencies. Some Fund investments may produce income that will not qualify as good income for the purposes of this annual gross income requirement. There can be no assurance that a Fund will satisfy all requirements to be taxed as a RIC.

A Fund will be subject to a 4% federal excise tax if it fails to distribute (or be deemed to have distributed) by December 31 of each calendar year (i) at least 98% of its ordinary income for such year, (ii) at least 98.2% of its capital gain net income for the 12-month period ending on October 31 during such year (reduced by any net ordinary losses, but not below the Fund's net capital gain for that period) and (iii) any amounts from the prior calendar year that were not distributed and on which the Fund paid no federal income tax.

Investment company taxable income generally consists of interest, dividends, net short-term capital gain and net gain from foreign currency transactions, less expenses. Net capital gain is the excess of the net long-term gain from a Fund's sales or exchanges of capital assets over the net short-term loss from such sales or exchanges, taking into account any capital loss carryforward of a Fund. The Funds may elect to defer certain losses for tax purposes. As of February 28, 2017, the Mid Cap Growth Fund had long term capital losses carryover of \$557,164.

Distributions of investment company taxable income are taxable to shareholders as ordinary income (for non-corporate shareholders, currently taxable at a maximum federal income tax rate of 39.6%). For non-corporate shareholders, a portion of a Fund's distributions of investment company taxable income may consist of "qualified dividend" income eligible for taxation at the reduced federal income tax rates applicable to long-term capital gains to the extent that the amount distributed is attributable to and reported as "qualified dividend" income and the shareholder meets certain holding period requirements with respect to its Fund shares. For corporate shareholders, a portion of a Fund's distributions of investment company taxable income may qualify for the intercorporate dividends-received deduction to the extent a Fund received dividends directly or indirectly from U.S. corporations, reports the amount distributed as eligible for deduction and the shareholder meets certain holding period requirements with respect to its shares. The aggregate amount so reported to either non-corporate or corporate shareholders cannot, however, exceed the aggregate amount of such dividends received by a Fund for its taxable year.

Distributions of net capital gain are taxable as long-term capital gain regardless of the length of time shares have been held. For non-corporate shareholders, long-term capital gain is currently taxable at a maximum federal income tax rate of 20%. Distributions of net capital gain are not eligible for "qualified dividend" income treatment or the dividends-received deduction referred to in the previous paragraph.

Distributions of any investment company taxable income and net capital gain will be taxable as described above whether received in additional Fund shares or in cash. Shareholders who choose to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the NAV of a share on the reinvestment date. Distributions are generally taxable when received. However, distributions declared in October, November or December to shareholders of record and paid the following January are taxable as if received on December 31. Distributions are generally includable in alternative minimum taxable income in computing a shareholder's liability for the alternative minimum tax.

Certain individuals, trusts and estates may be subject to a net investment income ("NII") tax of 3.8% (in addition to the regular income tax). The NII tax is imposed on the lesser of: (i) the taxpayer's investment income, net of deductions properly allocable to such income; or (ii) the amount by which the taxpayer's modified adjusted gross income exceeds certain thresholds (\$250,000 for married individuals filing jointly, \$200,000 for unmarried individuals and \$125,000 for married individuals filing separately). Each

Fund's distributions are includable in a shareholder's investment income for purposes of this NII tax. In addition, any capital gain realized by a shareholder upon the sale, exchange or redemption of Fund shares is includable in such shareholder's investment income for purposes of this NII tax.

A sale, redemption or exchange of Fund shares, whether for cash or in kind proceeds, may result in recognition of a taxable capital gain or loss. Gain or loss realized upon a sale, redemption or exchange of Fund shares will generally be treated as long-term capital gain or loss if the shares have been held for more than one year, and, if held for one year or less, as short-term capital gain or loss. However, any loss realized upon a sale, redemption or exchange of shares held for six months or less will be treated as a long-term capital loss to the extent of any distributions of net capital gain received or deemed to be received with respect to such shares. In determining the holding period of such shares for this purpose, any period during which the shareholder's risk of loss is offset by means of options, short sales, or similar transactions is not counted. Any loss realized upon a sale, redemption or exchange of Fund shares may be disallowed under certain wash sale rules to the extent shares of the same Fund are purchased (through reinvestment of distributions or otherwise) within 30 days before or after the sale, redemption or exchange. If a shareholder's loss is disallowed under the wash sale rules, the basis of the new shares will be increased to preserve the loss until a future sale, redemption or exchange of the shares.

Under the Foreign Account Tax Compliance Act ("FATCA"), a Fund may be required to withhold a generally nonrefundable 30% tax on (i) distributions of investment company taxable income, and (ii) distributions of net capital gain and the gross proceeds of a sale, exchange or redemption of Fund shares paid after December 31, 2018 to (A) certain "foreign financial institutions" unless such foreign financial institution agrees to verify, monitor, and report to the IRS the identity of certain of its accountholders, among other items (unless such entity is deemed compliant under the terms of an intergovernmental agreement with the United States), and (B) certain "non-financial foreign entities" unless such entity certifies to the Fund that it does not have any substantial U.S. owners or provides the name, address, and taxpayer identification number of each substantial U.S. owner, among other items. This FATCA withholding tax could also affect a Fund's return on its investments in foreign securities or affect a shareholder's return if the shareholder holds its Fund shares through a foreign intermediary. You are urged to consult your tax adviser regarding the application of this FATCA withholding tax to your investment in a Fund and the potential certification, compliance, due diligence, reporting, and withholding obligations to which you may become subject in order to avoid this withholding tax.

Except in the case of certain exempt shareholders, if a shareholder does not furnish a Fund with its correct Social Security Number or taxpayer identification number and certain certifications or the Fund receives notification from the IRS requiring backup withholding, such Fund is required by federal law to withhold federal income tax from the shareholder's distributions and redemption proceeds at a rate of 28% for U.S. residents.

Foreign taxpayers (including nonresident aliens) are generally subject to withholding tax at a flat rate of 30% on U.S.-source income that is not effectively connected with the conduct of a trade or business in the U.S. This withholding rate may be lower under the terms of a tax convention.

This section is not intended to be a full discussion of federal income tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations to a particular investor. You are urged to consult your own tax adviser.

Distributions

Each Fund will receive income primarily in the form of dividends and interest earned on such Fund's investments in securities. This income, less the expenses incurred in its operations, is a Fund's net investment income, substantially all of which will be distributed to the Fund's shareholders.

The amount of a Fund's distributions is dependent upon the amount of net investment income received by the Fund from its portfolio holdings, is not guaranteed and is subject to the discretion of the Board of Trustees. The Funds do not pay "interest" or guarantee any fixed rate of return on an investment in their shares.

A Fund may also realize capital gains or losses in connection with sales or other dispositions of its portfolio securities. Any net gain that a Fund may realize from transactions involving investments held less than the period required for long-term capital gain or loss recognition or otherwise producing short-term capital gains and losses (taking into account any capital loss carryforward) will be distributed to shareholders as part of the Funds' distributions of net investment income. If during any year a Fund realizes a net gain on transactions involving investments held for the period required for long-term capital gain or loss recognition or otherwise producing long-term capital gains and losses, the Fund will generally have a net long-term capital gain. After deduction of the amount of any net short-term capital loss, the balance (to the extent not offset by any capital loss carryforward) will be distributed and treated as long-term capital gains in the hands of the shareholders regardless of the length of time that the shares may have been held by the shareholder. Net capital losses realized by a Fund may be carried forward indefinitely and will generally retain their character as short-term or long-term capital losses. For more information concerning applicable capital gains tax rates, please consult your tax adviser.

Any distribution paid by a Fund reduces the Fund's NAV per share on the date paid by the amount of the distribution per share. Accordingly, a distribution paid shortly after a purchase of shares by a shareholder would represent, in substance, a partial return of capital (to the extent it is paid on the shares so purchased), even though it would be subject to federal income taxes.

Distributions will be made in the form of additional shares of the Funds unless the shareholder has otherwise indicated. Shareholders have the right to change their elections with respect to the reinvestment of distributions by notifying the Transfer Agent in writing. However, any such change will be effective only as to distributions for which the record date is five or more calendar days after the Transfer Agent has received the written request.

Cost Basis Reporting

The Funds are required to report to certain shareholders and the IRS the cost basis of shares acquired by such shareholders on or after January 1, 2012 ("covered shares") when the shareholder sells, exchanges or redeems such shares. These requirements do not apply to shares held through a tax-deferred arrangement, such as a 401(k) plan or an IRA, or to shares held by tax-exempt organizations, financial institutions, corporations (other than S corporations), banks, credit unions and certain other entities and governmental bodies. Shares acquired before January 1, 2012 ("non-covered shares") are treated as if held in a separate account from covered shares. The Funds are not required to determine or report a shareholder's cost basis in non-covered shares and are not responsible for the accuracy or reliability of any information provided for non-covered shares.

The cost basis of a share is generally its purchase price adjusted for distributions, returns of capital, and other corporate actions. Cost basis is used to determine whether the sale, exchange or redemption of a share results in a capital gain or loss. If you sell, exchange or redeem covered shares during any year, then the Funds will report the gain or loss, cost basis, and holding period of such covered shares to the IRS and you on Form 1099.

A cost basis method is the method by which a Fund determines which specific covered shares are deemed to be sold, exchanged or redeemed when a shareholder sells, exchanges or redeems less than its entire holding of Fund shares and has made multiple purchases of Fund shares on different dates at differing net asset values. If a shareholder does not affirmatively elect a cost basis method, each Fund will use the average cost method, which averages the basis of all Fund shares in an account regardless of holding period, and shares sold, exchanged or redeemed are deemed to be those with the longest holding period first. Each shareholder may elect in writing (and not over the telephone) any alternate IRS-approved cost basis method to calculate the cost basis in its covered shares. The default cost basis method applied by the Funds or the alternate method elected by a shareholder may not be changed after the settlement date of a sale, exchange or redemption of Fund shares.

If you hold Fund shares through a broker (or another nominee), please contact that broker or nominee with respect to the reporting of cost basis and available elections for your account.

You are encouraged to consult your tax adviser regarding the application of these cost basis reporting rules and, in particular, which cost basis calculation method you should elect.

Financial Statements
